Video Source Book ,2006 A guide to programs currently available on video in the areas of movies entertainment general interest education sports recreation fine arts health science business industry children juvenile how to instruction **Encyclopedia of Great Popular Song Recordings** Steve Sullivan,2013-10-04 From John Philip Sousa to Green Day from Scott Joplin to Kanye West from Stephen Foster to Coldplay The Encyclopedia of Great Popular Song Recordings Volumes 1 and 2 covers the vast scope of its subject

with virtually unprecedented breadth and depth. Approximately 1 000 key song recordings from 1889 to the present are explored in full, unveiling the stories behind the songs, the recordings, the performers and the songwriters. Beginning the journey in the era of Victorian parlor balladry, brass bands and ragtime, with the advent of the record industry readers witness the birth of the blues and the dawn of jazz in the 1910s, and the emergence of country music on record and the shift from acoustic to electrical recording in the 1920s. The odyssey continues through the Swing Era of the 1930s, rhythm and rock modern soul, the British invasion and the folk rock movement of the 1960s, and finally into the modern era through the musical streams of disco, punk, grunge, hip hop and contemporary dance pop. Sullivan however also takes critical detours by extending the coverage to genres neglected in pop music histories from ethnic and world music, the gospel recording of both black and white artists and lesser known traditional folk tunes that reach back hundreds of years. This book is ideal for anyone who truly loves popular music in all of its glorious variety and anyone wishing to learn more about the roots of virtually all the music we hear today. Popular music fans as well as scholars of recording history and technology and students of the intersections between music and cultural history will all find this book to be informative and interesting.

Making Tracks Scott Billington, 2022-06-16. From the 1980s through the early 2000s a golden era for southern roots music producer and three time Grammy winner Scott Billington recorded many of the period's most iconic artists. Working primarily in Louisiana for Boston based Rounder Records Billington produced such giants as Irma Thomas, Charlie Rich, Buckwheat Zydeco, Johnny Adams, Bobby Rush, Ruth Brown, Beau Jocque and Solomon Burke. The loving and sometimes irreverent profiles in *Making Tracks* reveal the triumphs and frustrations of the recording process and that obsessive quest to capture a transcendent performance. Billington's long working relationships with the artists give him perspective to present them in their complexity, foibles, failures and fabled feats while providing a vivid look at the environs in which their music thrived. He tells about Boozoo Chavis's early days as a musician, jockey and bartender at his mother's quarter horse track and Ruth Brown's reign as the most popular star in rhythm and blues when the challenge of traveling on the chitlin circuit proved the antithesis of the glamour she exuded on stage. In addition *Making Tracks* provides a widely accessible study in the craft of recording. Details about the technology and psychology behind the sessions abound. Billington demonstrates varying ways of achieving the mutual goal of a great record. He also introduces the supporting cast of songwriters, musicians and engineers crucial to the magic in each recording session. *Making Tracks* sings unforgettably like a from the vault discovery.
