

Text Entry for Mobile Computing: Models and Methods, Theory and Practice

I. Scott MacKenzie and R. William Soukoreff
York University

ABSTRACT

Text input for mobile or handheld devices is a flourishing research area. This article begins with a brief history of the emergence and impact of mobile computers and mobile communications devices. Key factors in conducting sound evaluations of new technologies for mobile text entry are presented, including methodology and experiment design. Important factors to consider are identified and elaborated, such as focus of attention, text creation versus text copy tasks, novice versus expert performance, quantitative versus qualitative measures, and the speed-accuracy trade-off. An exciting area within mobile text entry is the combined use of Fitts' law and a language corpus to model, and subsequently optimize, a text entry technique. The model is described, along with examples for a variety of soft keyboards as well as the telephone keypad. A survey of mobile text entry techniques, both in research papers and in commercial products, is presented.

I. Scott MacKenzie is a computer scientist with an interest in human-computer interaction, especially human input to computing systems and human performance measurement and modeling; he is an Associate Professor in the Department of Computer Science at York University. **R. William Soukoreff** is a computer scientist with an interest in human-computer interaction; he is a graduate student in the Department of Computer Science at York University.

Text Entry For Mobile Computing:

Text Entry for Mobile Computing I. Scott MacKenzie,2003-07-30 The four articles in this special issue of Human Computer Interaction describe recent research in mobile text entry The issue begins with a review article that provides general comments on methodologies for evaluating new text entry techniques The next two articles present Dasher a text entry technique with an interface driven from continuous two dimensional gestures and a detailed extension to the prediction model of Soukoreff and MacKenzie The final article takes a completely different approach to modeling the text entry task As a collection the articles represent a sample of promising research initiatives in text entry for mobile computing

Text Entry for Mobile Computing I. Scott MacKenzie,2002-11-01 The four articles in this special issue of Human Computer Interaction describe recent research in mobile text entry The issue begins with a review article that provides general comments on methodologies for evaluating new text entry techniques The next two articles present Dasher a text entry technique with an interface driven from continuous two dimensional gestures and a detailed extension to the prediction model of Soukoreff and MacKenzie The final article takes a completely different approach to modeling the text entry task As a collection the articles represent a sample of promising research initiatives in text entry for mobile computing

Human-Computer Interaction - Mobile HCI 2004 Stephen Brewster,Mark Dunlop,2004-09-02 This book constitutes the refereed proceedings of the 6th International Symposium on Mobile Human Computer Interaction Mobile HCI 2004 held in Glasgow UK in September 2004 The 25 revised full papers 20 revised short papers and 22 revised posters presented together with summaries of 7 workshops and 2 panels were carefully reviewed and selected from a total of 166 submissions The full papers are organized in topical sections on screen and power limitations user differences and navigation evaluation and evaluation techniques till touch and text entry auditory interactions device differences and web pages and novel interaction techniques

Text Entry Systems I. Scott MacKenzie,Kumiko Tanaka-Ishii,2010-07-28 Text Entry Systems covers different aspects of text entry systems and offers prospective researchers and developers global guidelines for conducting research on text entry in terms of design strategy evaluation methodology and requirements a discussion of the history and current state of the art of entry systems and specific guidelines for designing entry systems for a specific target depending on devices modalities language and different physical conditions of users Text entry has never been so important as it is today This is in large part due to the phenomenal relatively recent success of mobile computing text messaging on mobile phones and the proliferation of small devices like the Blackberry and Palm Pilot Compared with the recent past when text entry was primarily through the standard qwerty keyboard people today use a diverse array of devices with the number and variety of such devices ever increasing The variety is not just in the devices but also in the technologies used entry modalities have become more varied and include speech recognition and synthesis handwriting recognition and even eye tracking using image processing on web cams Statistical language modeling has advanced greatly in the past ten years and so therein is

potential to facilitate and improve text entry increasingly the way people communicate This book covers different aspects of text entry systems and offers prospective researchers and developers Global guidelines for conducting research on text entry in terms of design strategy evaluation methodology and requirements History and current state of the art of entry systems including coverage of recent research topics Specific guidelines for designing entry systems for a specific target depending on devices modalities language and different physical conditions of users *Universal Access in Human-Computer Interaction. Context Diversity* Constantine Stephanidis,2011-06-27

The four volume set LNCS 6765 6768 constitutes the refereed proceedings of the 6th International Conference on Universal Access in Human Computer Interaction UAHCI 2011 held as Part of HCI International 2011 in Orlando FL USA in July 2011 jointly with 10 other conferences addressing the latest research and development efforts and highlighting the human aspects of design and use of computing systems The 47 revised papers included in the third volume were carefully reviewed and selected from numerous submissions The papers are organized in the following topical sections universal access in the mobile context ambient assisted living and smart environments driving and interaction interactive technologies in the physical and built environment

Encyclopedia of Mobile Computing and Commerce Taniar, David,2007-04-30 The Encyclopedia of Mobile Computing and Commerce presents current trends in mobile computing and their commercial applications Hundreds of internationally renowned scholars and practitioners have written comprehensive articles exploring such topics as location and context awareness mobile networks mobile services the socio impact of mobile technology and mobile software engineering

Human-Computer Interaction Julie Jacko,Constantine Stephanidis,2003-09-01 This is the second volume in the HCI International Conference Proceedings 2003 See following arrangement for details

The Universal Access Handbook Constantine Stephanidis,2009-06-11 In recent years the field of Universal Access has made significant progress in consolidating theoretical approaches scientific methods and technologies as well as in exploring new application domains Increasingly professionals in this rapidly maturing area require a comprehensive and multidisciplinary resource that addresses current principles

Computers Helping People with Special Needs Klaus Miesenberger,Joachim Klaus,Wolfgang Zagler,Arthur Karshmer,2008-07-04 Welcome to the proceedings of ICCHP 2008 We were proud to welcome participants from more than 40 countries from all continents to

ICCHP The International Programme Committee encompassing 102 experts from all over the world selected 150 full and 40 short papers out of 360 abstracts submitted to ICCHP Our acceptance rate of about half of the submissions demonstrates the scientific quality of the programme and in particular the proceedings you have in your hands An impressive group of experts agreed to organize Special Thematic Sessions STS for ICCHP 2008 The existence of these STS sessions helped to bring the meeting into sharper focus in several key areas of assistive technology In turn this deeper level of focus helped to bring together the state of the art and mainstream technical social cultural and political developments Our keynote speaker Jim Fruchterman from BeneTech USA highlighted the portance of giving access to ICT and AT at a global level In another

keynote by Hold Thimbleby Swansea University UK the role of user centred design and usability engineering in assistive technology and accessibility was addressed And finally a combination keynote and panel discussion was reserved for WAI WCAG2.0 which we expect to be the new reference point for Web accessibility from the summer of 2008 and beyond

Human-Computer Interaction -- INTERACT 2013 Paula Kotzé, Gary Marsden, Gitte Lindgaard, Janet Wesson, Marco Winckler, 2013-07-30 The four volume set LNCS 8117 8120 constitutes the refereed proceedings of the 14th IFIP TC13 International Conference on Human Computer Interaction INTERACT 2013 held in Cape Town South Africa in September 2013 The 57 papers included in the first volume are organized in topical sections on 3D navigation 3D technologies 3D object manipulation augmented reality cognitive workload cognitive workload and decision support creating effective 3D displays cross cultural intercultural and social issues data entry mechanisms and devices design and evaluation design and evaluation of prototypes design to support creativity designing for inclusiveness designing with and for people with special needs display manipulations and diversity ICT in social development [Library & Information Science Abstracts](#), 2005 **Mobile Computing**, 2009 This multiple volume publication advances the emergent field of mobile computing offering research on approaches observations and models pertaining to mobile devices and wireless communications from over 400 leading researchers Provided by publisher [Comptes Rendus - Interface Graphique](#), 2012 [Proceedings of the ACM Symposium on User Interface Software and Technology](#), 2006 [Multiple User Interfaces](#) Ahmed Seffah, Homa Javahery, 2004-01-16

Publisher Description **The Dhaka University Journal of Science**, 2008 **Mobile Computing** Raj Kamal, 2007 Mobile Computing provides a comprehensive coverage of both the communication and computing aspects The student friendly style numerous illustrative examples and exercises for each topic discussed make the text ideal for classroom learning Mobile Computing is designed to serve as a textbook for students in the disciplines of computer science and engineering electronics and communication engineering and information technology It describes the basic concepts of mobile computing and provides technical information about the various aspects of the subject as also the latest technologies that are currently in use The first few chapters present a balanced view of mobile computing as well as mobile communication including the 2G and 3G communication systems mobile IP and mobile TCP The subsequent chapters provide a systematic explanation of mobile computing as a discipline in itself The book provides an in depth coverage of databases in mobile systems methods of data caching dissemination and synchronization Bluetooth IrDA and ZigBee protocols data security mobile ad hoc and wireless sensor networks and programming languages and operating systems for mobile computing devices Written in an easy to understand and student friendly manner the book includes several illustrative examples and sample codes A comprehensive set of exercises is included at the end of each chapter **CHI ... Conference Proceedings**, 2006 **Third IEEE Workshop on Mobile Computing Systems and Applications** IEEE Computer Society. Technical Committee on the Internet, 2000 Annotation Seventeen papers from the December 2000 workshop discuss ubiquitous and context aware

computing service discovery and interaction personal mobility systems support and UI toolkits for mobile devices and protocols for wireless networks Some of the topics are a virtual machine architecture designed for mobile embedded systems the Roma personal metadata service performance evaluation of a lightweight resource reservation protocol for mobile Internet hosts optimizing thin clients for wireless active media applications and using CORBA applications in nomadic environments No subject index Annotation copyrighted by Book News Inc Portland OR **Transactions of the Asiatic Society of Japan** Asiatic Society of Japan, 2010 List of transactions v 1 41 in v 41

This is likewise one of the factors by obtaining the soft documents of this **Text Entry For Mobile Computing** by online. You might not require more period to spend to go to the ebook introduction as competently as search for them. In some cases, you likewise accomplish not discover the pronouncement Text Entry For Mobile Computing that you are looking for. It will no question squander the time.

However below, once you visit this web page, it will be correspondingly extremely easy to get as well as download guide Text Entry For Mobile Computing

It will not tolerate many grow old as we run by before. You can attain it even though work something else at house and even in your workplace. in view of that easy! So, are you question? Just exercise just what we pay for below as with ease as evaluation **Text Entry For Mobile Computing** what you later to read!

Text Entry For Mobile Computing Introduction

In the digital age, access to information has become easier than ever before. The ability to download Text Entry For Mobile Computing has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Text Entry For Mobile Computing has opened up a world of possibilities. Downloading Text Entry For Mobile Computing provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Text Entry For Mobile Computing has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Text Entry For Mobile Computing. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Text Entry For Mobile Computing. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Text Entry For Mobile Computing, users should also consider the potential security risks associated with online

platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Text Entry For Mobile Computing has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Text Entry For Mobile Computing Books

What is a Text Entry For Mobile Computing PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Text Entry For Mobile Computing PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF.

How do I edit a Text Entry For Mobile Computing PDF? Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Text Entry For Mobile Computing PDF to another file format?**

There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobat's export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Text Entry For Mobile Computing PDF?**

Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. **How do I compress a PDF file?** You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. **Can I fill out forms in a PDF file?** Yes, most PDF viewers/editors like Adobe

Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
