book is the fifth in the series God sex and you From an impeccable knowledge understanding and mastery of the Scriptures the author Professor Z T Fomum argues convincingly that as the king of the household the prophet and the priest of his wife a man is solely responsible for the success of the marriage according to God s bidding The need arises for the husband to put his self under control to love his wife as Christ loved the Church to have a supreme goal and to pray and fast for her Every man is to love his wife using God s evaluation system in the Bible Many marriages fail because the partners are using personal traditional customary or modern evaluation systems This book can make you wise onto salvaging and saving your marriage for those who are married and providing a solid foundation for those who will marry one day **Success in**

A Successful Marriage: The wife's making Zacharias Tanee

Fomum, 2015-04-15 Nowadays many marriages are failing and even some marriages of true believers are broken or in disarray The reason is that many wives have missed the divine model for a successful marriage What is a successful marriage What s the role of the wife in ensuring a successful marriage Indeed the wife is called to be a suitable helper for her husband She is called to assist him in fulfilling God s call in his life In this book we study the requirements for becoming and remaining a suitable helper When a wife becomes and continues to be a suitable helper for her husband she brings her full contribution to make their marriage a success We publish this book praying that it will be used by the Holy Spirit to transform some broken or breaking marriages into successful marriages and that it will transform all happy marriages into successful marriages for the glory of the Lord and the advancement of the Gospel Strong Marriage Happy Life Sonya Dawson, 2014-12-08 The Principles Of A Successful And Lasting Marriage Love is the most important aspect of marriage to many people Most of us decide whether or not to get married more on the basis of our feelings of love than of any other aspect of our relationship and we evaluate the success of our marriage on the basis of those feelings more than anything else A surprising feature of the love aspect of marriage is that even in these times of rapid social change and innovative lifestyles it is an aspect that most people do not want to change This very important part of marriage is however difficult to study because love means very different things to different people and it is an extremely difficult experience to define If you re about to get married if you ve just gotten married or if you ve been in a marriage that seems to be going nowhere then this book is for you Knowing how to make your marriage work is an important aspect of happily living the rest of your adult life Strong Marriage Happy Life teaches you the core principles of successful marriages and how you can implement them to make your marriage work In other words this book teaches you the secrets to having a happy married life It s exactly how our favourite fairy tales end you and your spouse living happily ever after Gain Insight Into The Following Factors Of A Successful Marriage Nurturing Love Keeping the Ties Sexuality in Marriage Coping with Stress Preparing for Parenthood Your Marriage As The Years Pass Much much more Towards a Successful Marriage Majeedah IDRIS, 2021-01-18 The book covers all needed to make a fantastic husband to one s wife and of course a fabulous wife to one s husband The contents

showed that the book stemmed from the author's interactions with couples who once had their marriages on the line or whose marriages regrettably crumbled. This invariably makes the book written from an experiential point of view. Most commendable for me is the writing style adopted by the author for better comprehension and practicability. The words used are simple and straight to the point. The chapters are sequentially arranged and the expressions meticulously coherent. Given the lamentable state of divorce in our time, especially among young couples, a book of this nature wherein husbands and wives are taught how to symbiotically relate with each other is not only necessary but sacrosanct. It's a book to be read by singles and married, encouraged by parents and used by professional and clerical counselors to settle marital discords.
