Human Rights and the Body Dr Annabelle Mooney, 2014-09-28 Human Rights and the Body is a response to the crisis in human rights to the very real concern that without a secure foundation for the concept of human rights their very existence is threatened While there has been consideration of the discourses of human rights and the way in which the body is written upon research in linguistics has not yet been fully brought to bear on either human rights or the body Drawing on legal concepts and aspects of the law of human rights Mooney aims to provide a universally defensible set of human rights and a foundation or rather a frame for them She argues that the proper frames for human rights are firstly the human body seen as an index reliant on the natural world secondly the globe and finally language These three frames generate rights to food water sleep and shelter environmental protection and a right against dehumanization This book is essential reading for researchers and graduate students in the fields of human rights and semiotics of law **Dialectics of the Body** Lisa Yun Lee, 2016-05-06 The study of Theodor Adorno has largely ignored or dismissed the enigmatic and provocative moments in his writing on the body Dialectics of the Body corrects this gap by arguing that Adorno's analysis of reified society emanates and returns to the body and that hope and desire are present throughout Adorno's philosophy **Essay on the connexion of the soul with the body, as a sequel to the essay on the origin of knowledge** John WALKER (Roman Catholic Priest, of Kenilworth.), 1858 A Body of Divinitie, or the summe and substance of Christian religion, catechistically propounded and explained ...
