The Holy Quran Volume 69 - Surah Al-Qamar, Surah Ar-Rahman Nasoha Bin Saabin, I have written many books and articles on various topics but since 2013 I have devoted myself fully in writing the interpretation of the Holy Quran in English and with the grace of Allah I have completed the whole Quran on 29th October 2020 with 84 books I believe there is a great need in the whole world for the correct interpretation of the Holy Quran to be written in English Currently there is a great misunderstanding about Islam among Muslims and non Muslims globally The misunderstanding of the meaning of the Holy Quran among Muslims will lead to the wrong practice of Islam which leads to the wrong actions of Muslims The wrong actions of Muslims will lead to misunderstandings about Islam among Muslims and non Muslims The wrong actions of the Muslims have led to many miseries and wars among Muslims The wrong actions of Muslims have also led to many wars and clashes between Muslims and non Muslims In order to avoid miseries wars and clashes from taking place between the whole mankind in the whole world the whole mankind in the whole world need to understand the true teaching of Islam There is no other way for the whole mankind to understand the true teaching of Islam unless the whole mankind is able to read and understand the correct interpretation of the Holy Quran The whole mankind is only able to read and understand the correct interpretation of the Holy Quran when it is written in the universal language of the world English For this very reason I have written the interpretation of the Holy Quran in English Prof Nasoha Bin Saabin Online Game: I'm the Boss Yi

the Future Museums Communities and Climate Change explores the way museums tackle the broad global issue of climate change It explores the power of real objects and collections to stir hearts and minds to engage communities affected by change Museums work through exhibitions events and specific collection projects to reach different communities in different ways The book emphasises the moral responsibilities of museums to address climate change not just by communicating science but also by enabling people already affected by changes to find their own ways of living with global warming There are museums of natural history of art and of social history The focus of this book is the museum communities like those in the Pacific who have to find new ways to express their culture in a new place The book considers how collections in museums might help future generations stay in touch with their culture even where they have left their place It asks what should the people of the present be collecting for museums in a climate changed future The book is rich with practical museum experience and detailed projects as well as critical and philosophical analyses about where a museum can intervene to speak to this great conundrum of our times Curating the Future is essential reading for all those working in museums and grappling with how to talk about climate change It also has academic applications in courses of museology and museum studies cultural studies heritage studies digital humanities design anthropology and environmental humanities **Our Boys**
