The History Of Talk Radio

Robert R. Redfield

The History Of Talk Radio:

Talk Radio Politics Jonathan Hawkins, AI, 2025-03-31 *Talk Radio Politics* explores the significant impact of political talk radio on civic discourse and the political landscape despite the rise of digital media. It examines how hosts craft narratives to mobilize audiences and influence elections, revealing its enduring power in shaping public opinion especially among politically engaged citizens. The book highlights the importance of understanding this medium's mechanics and rhetorical strategies in today's complex political communication environment. The book charts the evolution of talk radio, noting the impact of the repeal of the Fairness Doctrine and analyzes the core elements of the genre: the charismatic host, dedicated listener base, and emphasis on opinion. It argues that political talk radio, while often criticized for partisanship and potential misinformation, also provides space for alternative viewpoints and fosters community. Emotional appeals and framing techniques are key to the medium's persuasive power. The book progresses through detailed portraits of influential hosts, explores the psychological and sociological factors contributing to its persuasive power, and examines its real world implications in shaping political campaigns and contributing to political polarization. Utilizing content analysis, listener surveys, and interviews, it offers a balanced perspective on both the positive and negative aspects of political talk radio's influence, making it valuable for students, journalists, and anyone interested in contemporary politics.

Talk Radio's America Brian Rosenwald, 2019-08-13 *The cocreator of the Washington Post's Made by History blog reveals how the rise of conservative talk radio gave us a Republican Party incapable of governing and paved the way for Donald Trump.* America's long road to the Trump presidency began on August 1, 1988, when desperate for content to save AM radio, top media executives stumbled on a new format that would turn the political world upside down. They little imagined that in the coming years their brainchild would polarize the country and make it nearly impossible to govern. Rush Limbaugh, an enormously talented former disc jockey, opinionated, brash, and unapologetically conservative, pioneered a pathbreaking infotainment program that captured the hearts of an audience no media executive knew existed. Limbaugh's listeners yearned for a champion to punch back against those maligning their values. Within a decade, this format would grow from fifty-nine stations to over one thousand, keeping millions of Americans company as they commuted, worked, and shouted back at their radios. The concept pioneered by Limbaugh was quickly copied by cable news and digital media. Radio hosts form a deep bond with their audience, which gives them enormous political power. Unlike elected representatives, however, they must entertain their audience or watch their ratings fall. Talk radio boosted the Republican agenda in the 1990s, but two decades later, escalation in the battle for the airwaves pushed hosts toward ever more conservative, outrageous, and hyperbolic content. Donald Trump borrowed conservative radio hosts' playbook and gave Republican base voters the kind of pugnacious candidate they had been demanding for decades. By 2016, a political force no one intended to create had completely transformed American politics.

A Companion to the History of American Broadcasting Aniko Bodroghkozy, 2018-10-02 *Presented in a single*

volume this engaging review reflects on the scholarship and the historical development of American broadcasting A Companion to the History of American Broadcasting comprehensively evaluates the vibrant history of American radio and television and reveals broadcasting's influence on American history in the twentieth and twenty first centuries With contributions from leading scholars on the topic this wide ranging anthology explores the impact of broadcasting on American culture politics and society from an historical perspective as well as the effect on our economic and social structures The text's original and accessibly written essays offer explorations on a wealth of topics including the production of broadcast media the evolution of various television and radio genres the development of the broadcast ratings system the rise of Spanish language broadcasting in the United States broadcast activism African Americans and broadcasting 1950's television and much more This essential resource Presents a scholarly overview of the history of radio and television broadcasting and its influence on contemporary American history Contains original essays from leading academics in the field Examines the role of radio in the television era Discusses the evolution of regulations in radio and television Offers insight into the cultural influence of radio and television Analyzes canonical texts that helped shape the field Written for students and scholars of media studies and twentieth century history A Companion to the History of American Broadcasting is an essential and field defining guide to the history and historiography of American broadcasting and its many cultural societal and political impacts

Encyclopedia of Political Communication Lynda Lee Kaid, Christina Holtz-Bacha, 2008

Political communication began with the earliest studies of democratic discourse by Aristotle and Plato However modern political communication relies on an interdisciplinary base which draws on concepts from communication political science journalism sociology psychology history rhetoric and others This two volume resource considers political communication from a broad interdisciplinary perspective encompassing the many different roles that communication plays in political processes in the United States and around the world The Encyclopedia of Political Communication discusses the major theoretical approaches to the field including direct and limited effects theories agenda setting theories sociological theories framing and priming theories and other past and present conceptualizations With nearly 600 entries this resource pays considerable attention to important political messages such as political speeches televised political advertising political posters and print advertising televised political debates and Internet sites The audiences for political communications are also central necessitating concentration on citizen reactions to political messages how the general public and voters in democratic systems respond to political messages and the effects of all types of media and message types Key Features Encompasses several channels of political communication including interpersonal and public communication radio television newspapers and the World Wide Web Provides news media coverage and journalistic analysis of politics political issues political figures and political institutions Concentrates on the field of political communication since the middle of the 20th century Emphasizes political communication from the point of view of the United States but there is substantial and

important research and scholarship on political communication in international contexts Considers the role of communication in governing incorporating communication activities that influence the operation of executive legislative and judicial bodies political parties interest groups political action committees and other participants in political processes Key Themes Biographies Books Films Journals Television Democracy Democratization Education and Nonprofit Organizations Elections Government Operations and Institutions Legal and Regulatory Media Events Media Outlets and Programs Role of Media in Political Systems News Media Coverage of Politics Political Affairs Theoretical Approaches Types of Political Media Political Attitudes Political Campaigns Political Events Political Groups and Organizations Political Issues Political Journalism Theoretical Concepts Women in Politics The Encyclopedia of Political Communication is designed for libraries undergraduates and members of the public with an interest in political affairs Media and political professionals as well as government officials lobbyists and participants in independent political organizations will find these volumes useful in developing a better understanding of how the media and communication function in political settings <http://catdir.loc.gov/catdir/enhancements/fy0828/2007026514.d.html>
