**Iterations of Differential Operators** A. V. Babin,1989 Translated from the Russian by H Zahavi Topics covered include the activity of linear and nonlinear differential operators the related theories of functions and operators and the connections between the theory of functions and partial differential equations The author focuses on new methods of constructing solutions for partial differential equations and looks at research into the smoothness of these solutions Formulae theorems and lemmas are numbered independently for quick reference and the detailed listing of the subjects covered in each chapter enables the reader to find a particular area of interest without difficulty Annotation copyrighted by Book News Inc Portland OR     Iteration Theory and Its Functional Equations Roman Liedl,Ludwig Reich,György Targonski,1985-12     **Scientific and Technical Aerospace Reports** ,1967 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database     **Computer Literature Bibliography: 1946-1963** W.
