There is more to life than the material world A non physical dimension of energy and information is where physical forms are conceived and birth into existence Your body and mind are contained within an intelligent alive and infinite space Consciousness is the connectedness to everything including knowledge This is a book that discusses in depth how to reunite your two selves and use them effectively to create a magical life that you love to live and will empower you in ways you can only imagine Our two selves within us work to create not only our personality but also the whole of our life experience While at one time in our history those selves were in close communication a de emphasis on the spiritual aspect of life in our society has caused those selves to become divorced from one another so that it is difficult for them to communicate The book teaches you how to bring those two selves back in touch with one another and to create a harmonious relationship between the two Since God communicates with us through the Higher Self bringing that part of our spirits closer to our Conscious Self actually brings us closer to Divine Energy and puts us on task with our life s purpose *Higher Self and Higher Ego* Helena Petrovna Blavatsky, William Quan Judge,2018-02-11 Higher Ego is the sole bearer of all its alter Egos on earth and their sole representative in the subjectivity of Devachan Higher Ego or Nous is our true Individuality that keeps reincarnating and clothing itself in a new personality at every new birth Yet that noble and lofty Noetic Entity that allows us to think and enjoy the boon of self consciousness is not ours It belongs to Divine Entities from higher and earlier worlds and planets whose Karma had not been exhausted when their world went into Pralaya By quickening the human mind they purify themselves in the fire of suffering and individual experience in order to re become the One Essence And so can we Their terrestrial reflection if by purity of thought and deed we rise to Their plane and partake of Their divine essence Philosophically Higher Ego is the apex of a triangle He is crucified between two Opposing Forces the personal ray dragged down by impure selfish desires on the left side and the uplifting purity of thought and deed on the right Higher Ego is Chrishna Christos the true Christ of the churches our personal god On the plane of matter Chr stos is Christos lower but aspiring counterpart an uninitiated adept or higher chela about to be admitted into Gupta Vidya i e Occultism s Greater Mysteries Therefore there are two Christs one above and one below Why Because the Higher needs the Lower as much as the Lower needs the Higher for gods feed on men Some Theosophists got into the habit of using Self and Ego as synonymous of associating Self with only

man's higher individual or even personal self or ego whereas Self ought never to be applied except to the One Universal Self. Even those pledged to their Higher Self by solemn vows and who were personally instructed by H P Blavatsky did not seem to understand the indissoluble link connecting their Higher Egos with the One Universal Self. When their knowledge was examined most could not explain the difference between the Higher and the Lower Self and scarcely any avoided a confusion between Higher Self and Higher Ego.

Conscious Self And Higher Self Jacquelyn Krygier, 2021-06 There is more to life than the material world. A non-physical dimension of energy and information is where physical forms are conceived and birth into existence. Your body and mind are contained within an intelligent, alive, and infinite space. Consciousness is the connectedness to everything, including knowledge. This is a book that discusses in depth how to reunite your two selves and use them effectively to create a magical life that you love to live and will empower you in ways you can only imagine. Our two selves within us work to create not only our personality but also the whole of our life experience. While at one time in our history those selves were in close communication, a de-emphasis on the spiritual aspect of life in our society has caused those selves to become divorced from one another so that it is difficult for them to communicate. The book teaches you how to bring those two selves back in touch with one another and to create a harmonious relationship between the two. Since God communicates with us through the Higher Self, bringing that part of our spirits closer to our Conscious Self actually brings us closer to Divine Energy and puts us on task with our life's purpose.

The Melchizedek Teachings Daniel Mitel, 2019-08-31 The Melchizedek teachings are undoubtedly the first on every inhabited world as they are considered to be the basis of any civilization. This first book of The Melchizedek Teachings series clarifies a subject that is very important in our times: the higher self and the ascension process.
