Containing sections on policy along with rights to protection provision and participation for young children, this book combines discussions of children's rights and early childhood development and investigates the crucial yet frequently overlooked link between the two. The authors examine how policy practice and research could be utilised to address the barriers to universal respect for children to create a safer and more enriching world for them to live and flourish in. The Routledge International Handbook of Young Children's Rights is an essential resource for students and academics in early childhood education, social work and paediatrics as well as for researchers, policymakers, leaders and practitioners involved in the provision of children's services and paediatric healthcare and international organisations with an interest in or ability to influence national or global policies on children's rights.

Disrupting and Countering Deficits in Early Childhood Education Fikile Nxumalo, Christopher P. Brown, 2019-08-15 This powerful edited collection disrupts the deficit-oriented discourses that currently frame the field of early childhood education. ECE and illuminates avenues for critique and opportunities for change. Researchers from across the globe offer their insight and expertise in challenging the logic within ECE that often frames children and their families through gaps, risks and deficits across such issues as poverty, language, developmental psychology, teaching and learning. Chapters propose practical responses to these manufactured crises and advocate for democratic practices and policies that enable ECE programs to build on the wealth of cultural and personal knowledge children and families bring to the early learning process. Moving beyond a dependence on deficits, this book offers opportunities for scholars, researchers and students to consider their practices in early education and develop their understanding of what it means to be an educator who seeks to support all children.

Child Marriage, Rights and Choice Hoko Horii, 2021-11-18 This book addresses the issue of agency in relation to child marriage. In international campaigns against child marriage, there is a puzzle of agency. While international human rights institutions celebrate girls' exercise of their agency not to marry, they do not recognize their agency to marry. Child marriage, usually defined as any formal marriage or informal union where one or both of the parties are under 18 years of age, is normally considered as forced, which is to say that it is assumed that they are not capable of consenting to marriage. This book, however, re-examines this assumption through a detailed socio-legal examination of child marriage in Indonesia. Eliciting the multiple competing frameworks according to which child marriage takes place, the book considers the complex reasons why children marry. Structural explanations such as lack of opportunities and oppressive social structures are important but not exhaustive explanations. Exploring the subjective reasons by listening to children's perspectives, their stories show that many of them decide to marry for love, desire to belong to the community and for new opportunities and hopes. The book then demonstrates how the child marriage framework and indeed the human rights framework in general is constructed on too narrow a vision of human agency. One that cannot but fail to respect and promote the agency of all regardless of gender, race
