**On: 100 Most Popular 20Th-century American Politicians** Wikipedia contributors,     **North American Odyssey** Craig E. Colten, Geoffrey L. Buckley, 2014-03-27 This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective. Leading geographers building on current scholarship in the field explore five central themes. Part I explores the settling and resettling of the continent through the experiences of Native Americans, early European arrivals, and Africans. Part II examines nineteenth-century European immigrants, the reconfiguration of Native society, and the internal migration of African Americans. Part III considers human transformations of the natural landscape in carving out a transportation network, replumbing waterways, extracting timber and minerals, preserving wilderness, and protecting wildlife. Part IV focuses on human landscapes, blending discussions of the visible imprint of society and distinctive approaches to interpreting these features. The authors discuss survey systems, regional landscapes, and tourist and mythic landscapes, as well as the role of race, gender, and photographic representation in shaping our understanding of past landscapes. Part V follows the urban impulse in an analysis of the development of the mercantile city, nineteenth- and twentieth-century planning, and environmental justice. With its focus on human-environment interactions, the mobility of people, and growing urbanization, this thoughtful text will give students a uniquely geographical way to understand North American history.

Athearn, 1986 Briefly describes life in the West and discusses the ephemeral nature of the region, western towns, the tourist industry, agriculture, fiction, and the ecology movement.     Black Greek-letter Organizations in the Twenty-First Century Gregory S.

Parks, 2008-06-13 During the twentieth century, black Greek Letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street

pioneer Reginald F Lewis Despite the profound influence of these groups many now question the continuing relevance of BGLOs arguing that their golden age has passed Partly because of their perceived link to hip hop culture black fraternities and sororities have been unfairly reduced to a media stereotype a world of hazing without any real substance The general public knows very little about BGLOs and surprisingly the members themselves often do not have a thorough understanding of their history and culture or of the issues currently facing their organizations To foster a greater engagement with the history and contributions of BGLOs Black Greek Letter Organizations in the Twenty first Century Our Fight Has Just Begun brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members Editor Gregory S Parks and the contributing authors provide historical context for the development of BGLOs exploring their service activities as well as their relationships with other prominent African American institutions The book examines BGLOs responses to a number of contemporary issues including non black membership homosexuality within BGLOs and the perception of BGLOs as educated gangs As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena Louisiana these organizations still have a vital mission Both internally and externally BGLOs struggle to forge a relevant identity for the new century Internally these groups wrestle with many issues including hazing homophobia petty intergroup competition and the difficulty of bridging the divide between college and alumni members Externally BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism sexism and other types of fear driven behavior By embracing the history of these organizations and exploring their continuing viability and relevance Black Greek Letter Organizations in the Twenty first Century demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead
