## **Super Welcome To Graphic Wonderland:**

*New Book Design* Roger Fawcett-Tang, 2004-05-25 *New Book Design* showcases the most interesting influential and accomplished book designs from the last ten years. It features over 100 titles published around the world, each chosen for their outstanding design qualities from the publications of large mainstream publishers to those of small independent companies and even those from individual artists. Included in its pages are lavishly produced books with unconventional formats and unusual print techniques as well as less flamboyant publications produced for various different markets. A wide variety of books are featured from paperback novels to architectural monographs, from text based to profusely illustrated books. Divided into four main sections: Packaging, Navigation, Layout and Specification, the book examines each facet of book design, cover design, contents and structure, image usage, grids, typography, paper, printing and binding. Clear photography captures each featured book and interviews with prominent book designers, art directors and publishers provide extra insight. *New Book Design* is sure to provide a rich source of inspiration to book designers and bibliophiles alike.

**Experimental Formats** Roger Fawcett-Tang, 2005 The book examines every aspect of designing the printed form, from single page to commercial package.

*Super* Andreas Berg, 2003 In February 2002, designers from 13 European graphic arts studios met in Zurich. This book is the result, the most open ended outlook possible of and on graphic design in Europe 2002.

**The Prize of Success** Jonas Berthod, 2004-04-02 In the small world of Swiss graphic design prizes such as the Swiss Design Awards SDA are followed closely. The winners' works are admired, envied and emulated. The generous prize money allows designers to launch their careers and focus on lesser paid but critically recognised work. Awards thus play the role of bellwethers of the scene. However, criticisms inevitably arise. Speaking in hushed tones, designers speculate as to why a colleague won over another. Rumours have it that jury members favour their inner circles and exclude competitors. Analysing this universe in detail, Jonas Berthod retraces the recent history of the SDA and the emergence of a new design culture in Switzerland.

*Iaspis forum on design and critical practice* Magnus Ericson, 2009 The Iaspis forum on design and critical practice has comprised an exhibition, an international seminar and now a publication on investigative, speculative and critically oriented design. The reader is based on four conversations between graphic designers about various aspects of design relating to their practices. It also contains a number of interviews and other texts linked to these conversations and a broader discussion about design and transboundary practice. Book jacket.

**Eye**, 2002 **Area 2** Ruedi Baur, 2008-03-26 The only international guide to contemporary graphics, juried and described by ten of the world's leading designers and critics.

**Playfully Rigid** Claude Lichtenstein, 2007 Necessity is the mother of invention but therein lies a dilemma. What must a society do if it wishes to remain inventive yet defines itself in terms of prosperity not need? It must take a particular stance toward prosperity even toward excess. Clarity and a systematic approach are parts of this stance as is the designer's ability to endow objects with esprit. Ingenuity and clarity are the two poles of a field of tension that produces an impression of ease and
