**Iran and the Nuclear Question** Mohammad Homayounvash, 2016-09-13 Spanning over a period of more than five decades since its inception Iran's nuclear programme is the most protracted civilian nuclear program in the world and one of the most politicized projects in Iran's history Iran and the Nuclear Question offers a historiographical portrait of Iran's early nuclear program under Mohammad Reza Shah Pahlavi Using declassified archival material the book thematically chronicles the program's genesis evolutionary trajectory and devolution from the 1950s through to the 1970s It also catalogues the Revolutionary Iran's early socialization into the atom and the Islamic Republic's gradual change of heart about nuclear energy that culminated in the incremental resuscitation of the Shah's nuclear enterprise in the 1980s As the first archive based account of one of the most long lasting and capital intensive nuclear enterprises during the Cold War Iran and the Nuclear Question is a valuable resource for students and scholars of Iranian Middle East and Security Studies Written in a clear and accessible format it will also appeal to those with a more general interest in Iran and its nuclear journey The Nuclear Question and the Problem of Peace Michael Howard, 1984 **The Nuclear Question** Michael Mandelbaum, 1982

Winkler, 1999 Presents an account of the impact of the atomic bomb on American political and cultural life This title delineates how fears of nuclear disaster have become a part of our culture Tracing the debate over military and civilian uses of atomic power it reveals the irony anxiety and official insanity of the atomic age **The Nuclear Question Revisted** , 2005 *Selected Works of Joseph Cardinal Bernardin* Joseph Bernardin, 2000 **The Nuclear Question** Colin Lacey, Pauline Jay, 1981 **Beyond Semiotics** Niall Lucy, 2001-07-26 Where is semiotics now As the promised science of the social life of signs in general semiotics has not been good to its word Although well established institutionally today through specialist journals research centres international conferences professional associations and the like semiotics now seems quaintly out of place in a world where text culture and technology defy metadisciplinary if not metaphysical explanation When the semiotician has finished explaining the music of Primal Scream the textuality of an email message or the culture of the internet most would believe there was still lots to be said A generation ago the radical humanities scholar turned to semiotics for the last word on news production cinematic desire or the meaning of youth style Today that last word which is always the latest word too is more likely to go to cultural studies literary theory or postmodernism all of which are in several senses beyond semiotics even while remaining indebted to it In addition we can't so easily presume to separate notions of production and desire say or news and cinema precisely because we can no longer say for sure where the differences lie between notions of text culture and technology Beyond Semiotics provides an approach to these three interdependent concepts of text culture and technology in order to show what semiotics had always had to marginalize forget or not see in the quest to professionalize

itself Meanwhile outside the limitation of any discipline the secular mysteries of text culture and technology today continue to call for a response not with the aim of laying bare the truth but of opening up the sign

**Nuclear Politics in America** Robert J. Duffy, 1997 Duffy's work traces nuclear politics from the creation of a powerful subgovernment through the public lobby reforms of the late 1960s and early 1970s and the deregulatory backlash of the Reagan years He demonstrates that while policies did change in the 1970s they did not change as much as other accounts have suggested and that the industry continued to receive considerable federal support The book is particularly significant for extending the discussion of nuclear policy through the Bush and Clinton years including the controversy over waste disposal new licensing procedures enacted in the 1992 Amendments to the Atomic Energy Act and the effects of deregulation of electric utilities Amazon.com viewed August 24 2020

**What Do We Tell Our Children about the Nuclear Question**, 1984\* South Asian Cultures of the Bomb Itty Abraham, 2009-03-26 Since their founding as independent nations nuclear issues have been key elements of nationalism and the public sphere in both India and Pakistan Yet the relationship between nuclear arms and civil society in the region is seldom taken into account in conventional security studies These original and provocative essays examine the political and ideological components of national drives to possess and test nuclear weapons Equal coverage for comparable issues in each country frames the volume as a genuine dialogue across this contested boundary
