Calidad en sitios web Pedraza-Jiménez, Rafael, Codina Bonilla, Lluís, Guallar Delgado, Javier, 2016-10-26 Calidad evaluación en análisis de sitios web. ¿Qué tienen en común todas estas palabras clave para que merezcan la atención del público de esta colección? El punto que lo une todo es la necesidad de un amplio y a la vez muy diverso colectivo profesional de saber qué es lo que hace que un sitio web responda a criterios de calidad. Pongamos el ejemplo de un profesional de la web que recibe el encargo de auditar los sitios web de una empresa de comercio electrónico: quiere estar segura de que está a la altura de sus competidores internacionales o el de un equipo de investigadores académicos que se pregunta cómo están incorporando las webs de turismo las más recientes posibilidades de interacción debidas a la web 2.0. Lo que tienen en común escenarios y objetivos tan diversos es que en todos ellos sus protagonistas necesitarán disponer de alguna herramienta que los ayude a determinar qué necesitan saber en relación con una web determinada o un conjunto de sitios web. Este libro intenta aportar esos instrumentos.

Búsquedas y hallazgos Sergio López Alonso, 1995 **Búsquedas** Julián Alfaro, 1975 **Técnicas de búsqueda y uso de la información** Ana R. Pacios Lozano, 2013-10-21 El objetivo de este libro es ayudar a los estudiantes a adquirir los conocimientos básicos sobre las fuentes de información en distintos campos de la ciencia, a estimular su sentido crítico a la hora de evaluar la información que encuentra en la red y a reflexionar y conocer las ventajas de hacer un uso tico de la información así como a gestionar la información que se encuentra en ella. Contiene numerosos ejemplos y utilidades de software para optimizar el trabajo de búsqueda, recuperación y organización de la información que existe en internet. **Los sistemas automatizados de acceso a la información bibliográfica: Evaluación y tendencias en la era de internet** Genaro Luis García López, 2007 Monografía de investigación y de divulgación académica que centra su análisis en los catálogos automatizados comenzando por su caracterización y evolución histórica hasta llegar a la situación actual. Se establecen tres grandes grupos temáticos que pueden ser sujetos de evaluación: la recuperación de la información, la base de datos y la interfaz ofreciendo una síntesis y estado de la cuestión sobre los mismos así como propuestas relacionadas con el acceso por materias tipologías de interfaces, recomendaciones para la presentación de la información, especialmente la bibliográfica para concluir con las tendencias de desarrollo de esos sistemas de acceso a la información. **Estudios de lingüística hispánica. Teorías, datos, contextos y aplicaciones: una introducción crítica.** Laura Mariottini, Monica Palmerini, 2022-06-21 Este volumen es el resultado de un proyecto científico amplio que tiene sus raíces en una trayectoria formativa y académica compartida por las editoras que remonta a los años de los estudios doctorales romanos en lingüística sincrónica diacrónica y aplicada que se han enfocado en ambos casos en la lengua española. A partir de ese entonces ambas hemos venido conformando un punto de vista peculiar sobre el español en el que la tradición de estudios lingüísticos de base italiana se ha enlazado con los estudios hispánicos de alcance internacional. Recientemente este antiguo proyecto ha encontrado las condiciones para su realización gracias también al establecerse de una red de colaboración entre estudiosos con intereses de

investigación comunes y animados por una misma necesidad de reflexionar en torno al ámbito disciplinar denominado lingüística hispánica. Desde nuestra perspectiva esta disciplina se ubica en el marco de la investigación sobre el lenguaje y las lenguas y es un dominio científico que pretende estudiar el español mediante modelos teóricos y metodológicos propios de la lingüística.

Fricción Roger Dooley, 2021-03-02 La fricción en las relaciones comerciales se puede definir como el desperdicio innecesario de tiempo, esfuerzos o dinero al realizar una tarea. Eso lleva por ejemplo a que en 2016 se abandonasen 4.6 billones de dólares en mercancías en los carros de la compra del comercio electrónico y que cada año la economía estadounidense pierda 3 billones de dólares en productividad debido al exceso de burocracia. En el mundo actual que va a toda velocidad y en el que los clientes tienen más opciones, los niveles de rapidez y eficiencia de las transacciones empresariales determinan en última instancia el éxito o el fracaso. En esta guía innovadora, el autor te ayuda a detectar los puntos de fricción inevitables que habrá en tu organización y te da las herramientas y las ideas que necesitas para eliminarlos. Al comprender de verdad el impacto que puede tener la fricción, serás capaz de establecer hábitos positivos y eliminar los negativos, todo con el resultado final de crear una empresa que sea la envidia del sector.

Búsquedas del trabajo social latinoamericano César A. Barrantes A., 2005. Ofrece una parte del material presentado y analizado en el XVIII Seminario Latinoamericano de Escuelas de Trabajo Social celebrado en Costa Rica en julio de 2004, que reunió a docentes, estudiantes y profesionales de trabajo social de América Latina, principalmente, y en el que se discutieron las principales preocupaciones, dilemas, retos, vacíos y fortalezas del trabajo social en distintos lugares del continente.

Brainfluence Roger Dooley, 2015-03-02. Un libro para persuadir e influir sobre los demás. Un libro que concentra todas las novedades del neuromarketing. De acuerdo con la neurociencia, el 95% de nuestros pensamientos, emociones y aprendizaje ocurre antes de que seamos conscientes de ello. Sin embargo, los grandes esfuerzos del marketing se siguen concentrando en los mensajes racionales que apelan al 5%. Brainfluence explica cómo funciona el cerebro y explica tanto cómo su funcionamiento influye en nuestras acciones, y también cómo se puede llegar a influir en cómo pensamos. A través de 100 breves consejos imprescindibles para cualquier experto en marketing o en comunicación, podrás aprender cómo colocar tus productos, cómo fijar precios, lograr fidelidad a una marca y mucho más. También es lectura imprescindible para todos los que consumimos cotidianamente y nos dejamos influir por quienes hacen uso de estos 100 consejos.

Libros argentinos, 2003

Debates y búsquedas actuales para la construcción de una alternativa política revolucionaria en América Latina y el Caribe, 1992

¿Qué es la Materia Oscura? Rogelio Pérez Casadiego, 2024-01-31. La materia oscura es uno de los fenómenos más estudiados y debatidos de nuestro tiempo. Pero ¿qué es la materia oscura? En este libro, el autor cuestiona las teorías convencionales sobre las ideas sobre la materia oscura y propone una nueva visión. Mediante un meticuloso análisis, demuestra que el plasma cristalizado responde a la mayoría de las

preguntas sobre las características de la materia oscura Esta reveladora teoría está respaldada por diversos estudios y datos que desafían los modelos predominantes Lejos de pretender tener la verdad absoluta sobre este complejo fenómeno el autor busca contribuir al debate científico con un enfoque novedoso Su perspectiva invita a la comunidad académica a reexaminar concepciones arraigadas y continúa la incansable búsqueda humana por comprender las difíciles preguntas sobre el universo
