**The Sense of Music** Raymond Monelle,2010-09-17 The fictional Dr Strabismus sets out to write a new comprehensive theory of music But music s tendency to deconstruct itself combined with the complexities of postmodernism doom him to failure This is the parable that frames The Sense of Music a novel treatment of music theory that reinterprets the modern history of Western music in the terms of semiotics Based on the assumption that music cannot be described without reference to its meaning Raymond Monelle proposes that works of the Western classical tradition be analyzed in terms of temporality

subjectivity and topic theory Critical of the abstract analysis of musical scores Monelle argues that the score does not reveal music's sense That sense what a piece of music says and signifies can be understood only with reference to history culture and the other arts Thus music is meaningful in that it signifies cultural temporalities and themes from the traditional manly heroism of the hunt to military power to postmodern polyvocality This theoretical innovation allows Monelle to describe how the Classical style of the eighteenth century which he reads as a balance of lyric and progressive time gave way to the Romantic need for emotional realism He argues that irony and ambiguity subsequently eroded the domination of personal emotion in Western music as well as literature killing the composer's subjectivity with that of the author This leaves Dr Strabismus suffering from the postmodern condition and Raymond Monelle with an exciting controversial new approach to understanding music and its history      *Mamluks and Animals* Housni Alkhateeb Shehada,2012-11-09 In *Mamluks and Animals* Veterinary Medicine in Medieval Islam Housni Alkhateeb Shehada offers the first comprehensive study of veterinary medicine its practitioners and its patients in the medieval Islamic world with special emphasis on the Mamluk period 1250-1517      **Plato and the Divided Self** Rachel Barney,Tad Brennan,Charles Brittain,2012-02-16 Investigates Plato's account of the tripartite soul looking at how the theory evolved over the Republic Phaedrus and Timaeus      (Un)Stable Relations: Horses, Humans and Social Agency Lynda Birke,Kirrilly Thompson,2017-12-12 This original and insightful book explores how horses can be considered as social actors within shared interspecies networks It examines what we know about how horses understand us and how we perceive them as well as the implications of actively recognising other animals as actors within shared social lives This book explores how interspecies relationships work using a variety of examples to demonstrate how horses and people build social lives Considering horses as social actors presents new possibilities for improving the quality of animal lives the human condition and human horse relations      **The Budget story books** Budget story books,1894
