The Cosmic Zoo:

The Cosmic Zoo Dirk Schulze-Makuch, William Bains, 2017-11-18 Are humans a galactic oddity or will complex life with human abilities develop on planets with environments that remain habitable for long enough In a clear jargon free style two leading researchers in the burgeoning field of astrobiology critically examine the major evolutionary steps that led us from the distant origins of life to the technologically advanced species we are today Are the key events that took life from simple cells to astronauts unique occurrences that would be unlikely to occur on other planets By focusing on what life does it s functional abilities rather than specific biochemistry or anatomy the authors provide plausible answers to this question Systematically exploring the various pathways that led to the complex biosphere we experience on planet Earth they show that most of the steps along that path are likely to occur on any world hosting life with only two exceptions One is the origin of life itself if this is a highly improbable event then we live in a rather empty universe However if this isn t the case we inevitably live in a universe containing a myriad of planets hosting complex as well as microbial life a cosmic zoo The other unknown is the rise of technologically advanced beings as exemplified on Earth by humans Only one technological species has emerged in the roughly 4 billion years life has existed on Earth and we don t know of any other technological species elsewhere If technological intelligence is a rare almost unique feature of Earth s history then there can be no visitors to the cosmic zoo other than ourselves Schulze Makuch and Bains take the reader through the history of life on Earth laying out a consistent and straightforward framework for understanding why we should think that advanced complex life exists on planets other than Earth They provide a unique perspective on the question that puzzled the human species for centuries are we alone

The Cosmic Zoo Alexandra R. Kapur-Fic, 2002 Not Available *Who's Who in the Cosmic Zoo?* Ella Lebain, 2013-06-05 In the last Gallup poll conducted in 2010 they estimated that over 100 million people have witnessed UFOs around the world We know they re there we know that we are being visited we know that contact has occurred on multiple levels across the board we know that alien abduction has been a threat and an enigma to the psychological community for decades The multimillion dollar questions remain Who are they Why are they here and What are their agendas Who s Who in the Cosmic Zoo A Spiritual Guide to ETs Aliens Gods and Angels answers those questions like no other book set has done before Who s Who in the Cosmic Zoo is a three part series focusing on the spiritual discernment of various multidimensional beings including extraterrestrials aliens gods and angels It describes the ancient drama that has spiraled through our galaxy for millennia one that humans have long been enmeshed in though most of us remain blissfully unaware of our compromised positions Who s Who in the Cosmic Zoo is the first book set of its kind to spiritually discern ETs aliens gods and angels It focuses on who the individual groups of ETs and aliens are who the god of this world is and who the ancient gods are who are expected to return in a final battle against the Almighty Creator God in the end time war known as Armageddon The series takes the reader down several paths and theories leading to the main message which emphasizes the

need for developing spiritual discernment by understanding the ancient history through connecting the dots to Bible messages mistranslations of the original Hebrew apocryphal writings and various mythologies The Bible tells us that in the last days a massive deception and great delusion will come that will deceive even the elect This deception will be done through the technology of UFOs aliens and ETs This is why it is imperative that earth humans have awareness of the exopolitical landscape which has its roots in biblical times Everyone living on planet Earth today needs a copy of Who's Who in the Cosmic Zoo as a guidebook to help discern what exactly they were seeing in the skies experiencing and how it fits into the changes occurring on our planet at this time The author discerns who is behind all the major religions on the planet why they differ and what the cause of war and dissension is The author reveals that the word of God was first written into the stars revealing who the cosmic Christ really is not just in relation to planet Earth but to the entire cosmos and how the Bible in concert with other exobiblical texts records ancient extraterrestrial contacts and how that connects into our present and future exopolitical scenario unfolding on planet Earth today
