DepEd Order 49, S. 2022 The Promotion of Professionalism in the Implementation and Delivery of Basic Education Programs and Services

It is one of the teachers role to guide a learner in order for them to have a good quality education. Ever since the DepEd order 49, S.2022 there have been problems that both the teachers and learners are having a hard time to adapt. This order has two goals, to depoliticize the department and promote professionalism among its personnel. Poa claims that DO 49 just serves as a "reminder" for civil officials to follow the "current rules". The directive required DepEd employees to handle coworkers and students with the "highest degree of professionalism."

Among the disadvantage of this order is that the order also prevents teachers from voicing their opinions regarding wrongdoings being done against their colleagues. The directive warns DepEd officials against attacking other DepEd employees online and directs them to follow legal and human resource mediation procedures instead. The order reads "Keep away from any relationships or activities that can make it difficult for you to perform your job duties objectively".

The section of the order wherein "Avoid relationship, and communication including following social media with learners outside of the school setting, except if they relatives" is where some fellow student including teachers have complaints about. Communication has played a vital role in our life, most importantly in school settings, it will be then limited due to this order. The communication and engagement between the teachers and students are not mainly about school related stuff, it is more beyond that. How can a student learn if communication is avoided outside school setting, there are some instances that communication outside school cannot be avoided.

The decision modified a prior guideline that cautioned DepEd employees against requesting endorsements or favors from politicians, government officials, or other comparable bodies outside the department. The directive said that failure to comply will result in a complete denial of any request or appeal for consideration by the Secretary's Office. DepEd did not give specifics regarding the policy's implementation, including the consequences for breaking it.

Overall, the order has serve its purpose, though it has flaws. DepEd should consider on revising this order because some of it are not fair and justifiable, it would only be a hindrance to student and teacher. DepEd should also focus on other important things, and not only focus about professionalism.

The Craft Of The Essay:

The Craft of the Essay Halsey P. Taylor, Victor N. Okada, 1977 **The Craft and Business of Song Writing** John Braheny, 1988 On the workings of the music industry Writing as a Method for the Self-Study of Practice Julian Kitchen, 2022-01-01 This book focuses on the writing process in the self study of teaching and teacher education practices. It addresses writing as an area in which teacher educators can develop their skills and represents how to write in ways that are compatible with self study's orientations towards the inquiry both personal and on practice. The book examines effective self study writing with chapters written by experienced self study practitioners. In addition to considering elements of writing as a method for the self study of practice it delves into the cognitive processes of real writers making explicit their writing practices. Practical suggestions are connected to the lived experiences of self study practitioners making sense of their field through the process of writing. This book will be of interest to doctoral and novice self study writers and experienced authors seeking to develop their practice. It demonstrates that writing as a method of inquiry in self study and beyond can be learned modeled and taught

The Craft of Musical Composition: Exercises in two-part writing. English translation by Otto Ortmann Paul Hindemith, 1970 Crafting Writers, K-6 Elizabeth Hale, 2008 How do we teach elementary students to independently use the different elements of craft that are discussed and taught in lessons? We begin by honoring the reality that terms like voice sentence fluency and writing with detail are descriptions of where we want our students to be not next steps on how to reach those goals. In Crafting Writers K-6 Elizabeth Hale shows us how to identify specific elements of craft when assessing student work and planning instruction and use them to teach students the specific craft techniques that will move them forward as writers. Liz offers practical information that teachers can use immediately in their classrooms. She also presents a concrete process for noticing craft in writing so teachers can develop and plan craft lessons based on their students writing. Learning the techniques that make up good writing also allows teachers to see craft in many different levels of writing a skill that is particularly powerful when conferring with below grade level writers. Additional chapters look closely at assessment and classroom management practices like group conferring. Most of us know good writing when we read it but writing teachers need to know what makes it work. Filled with easy to use charts and practical lessons Crafting Writers K-6 provides clear insight into identifying and teaching the small elements that make good writing successful
