The Cuban Economy Measurement And Analysis Of Socialist Performance:

The Cuban Economy Andrew S. Zimbalist, Claes Brundenius, 1989 **The Cuban Revolution as Socialist Human Development** Henry Veltmeyer, Mark Rushton, 2011-11-11 The book argues that the Cuban Revolution should be understood as a model of socialist human development Several particular features of this model were critical to the survival of the Cuban Revolution under conditions of neoliberal globalization **Cuban Communism 9th Editi** Irving Louis Horowitz, Jaime Suchlicki, Forty six essays presented by avowedly anti Castro editors and gathered mostly from US journals and books of the past couple decades are organized into five sections devoted to the history economy society military and polity of Cuba Some of the specific topics treated include Cuban and Soviet relations decentralization local government and participation economic policies and strategies for the 1990s the politics of sports political and military relations and forecasting institutional changes after Castro In addition two appendices present a chronology of the Cuban revolution from 1959 to 1998 and biographical essays on 19 revolutionary leaders Annotation copyrighted by Book News Inc Portland OR **Cuba** Louis A. Pérez, 2015 Spanning the history of the island from pre Columbian times to the present this highly acclaimed survey examines Cuba s political and economic development within the context of its international relations and continuing struggle for self determination The dualism that emerged in Cuban ideology between liberal constructs of patria and radical formulations of nationality is fully investigated as a source of both national tension and competing notions of liberty equality and justice Author Louis A P rez Jr integrates local and provincial developments with issues of class race and gender to give students a full and fascinating account of Cuba s history focusing on its struggle for nationality **Cuban Communism** Irving Louis Horowitz, Jaime Suchlicki, There is no handier guide to the Castro regime and the debates swirling around it Foreign Affairs Appearing in the aftermath of the stunning events surrounding the Elian Gonzalez case the nature of Cuban Communism has again become a core issue for the American people Cuban Communism has widely come to be known as the Bible of Cuban Studies It has been updated and upgraded for the fourth decade of Castro s successful seizure of power the longest running dictatorship in the world In addition to articles and essays representing recent developments in Cuba the work boasts an update of three new features that will make it even more important to students scholars and researchers in the area The volume has an entirely new section on future prospects for civil society and democracy for Cuba in a post Castro environment It also contains a chronology of events from 1959 through 2000 that will be important as a guide for studying the period Finally the work contains a brief but carefully constructed who s who of important players in Cuba and the regime during the Castro period Some of the articles new to the tenth edition of Cuban Communism are by Ernesto Betancourt Technical Assistance Needs for Institutional Transformation Andrew Natsios Humanitarian Assistance During a Democratic Transition in Cuba Juan J Lopez Non Transition in Cuba Michael Radu United States and Cuba after Castro Sergio Diaz Briquets International Lending Institutions in Cuba s Transition Process and Future Security Issues between the United

States and Cuba by Brian Latell This edition sheds new light on why despite predictions of imminent collapse the Castro regime has remained in power It offers insights into the survival potential of dictatorships and illegitimate regimes despite crisis and ostracism It is more than ever a must volume for those interested in comparative political systems and social structures Irving Louis Horowitz is Hannah Arendt Distinguished Professor Emeritus of Sociology and Political Science at Rutgers University Among his works are Three Worlds of Development Beyond Empire and Revolution and the Bacardi Lectures on Cuba published as The Conscience of Worms and the Cowardice of Lions Jaime Suchlicki is Bacardi Professor of History at the Graduate School of International Studies at the University of Miami and executive director of its Cuban American and Cuban Center He is author of From Columbus to Castro University Students and Revolution in Cuba and Mexico From Montezuma to Nafta Chiapas and Beyond *The Caribbean Basin* ,1993 **Africa, Asia, and South America Since 1800** A. J. H. Latham,1995 A reference for graduate and undergraduate students presenting the bibliographic details and sometimes describing and evaluating the content of over 5 000 books in English most published since 1945 and many quite recently but also some earlier works of enduring importance A section of works on all three continents is followed by sections on each which first consider the continent as a whole then each country usually by chronological periods and topics such as economics politics and society Indexed only by author and editor but the table of contents is detailed enough to provide adequate access Distributed in the US by St Martin s Press Annotation copyright Book News Inc Portland Or Transition and Institutions Giovanni Andrea Cornia,Vladimir Mikhaïlovich Popov,2001 This book is the first comprehensive assessment of the mortality crisis which has affected most economies in transition but which has remained so far largely unexplained It reconciles long term and short term explanations of the crisis and makes use of special micro data sets never used before By providing a rigorous multidisciplinary analysis of this upsurge in mortality rates the book hopes to contribute to the launch of vigorous policies to tackle this societal problem Art and Revolution in Latin America, 1910-1990 David Craven,2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the

author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process Monthly Review ,1996 The Cuba Paper Series ,1993* The American Economic Review ,1989 International Working Paper Series ,1996 The Statesmans Year Book Brian Hunter,1992 Agriculture and Human Values ,2003 The Role of Human Capital in Cuban Economic Development, 1959-1999 Claes Brundenius,2000 The Fractured Blockade Charles Alistair Michael Hennessy,George Lambie,1993 Comprises essays Focuses on economic and commercial relations between Cuba and Western European nations especially France Spain and the UK Covers the period 1959 to 1990 and considers prospects for the late 1990s Documentation Internationale Du Travail International Labour Office.
