teaching assistants and new college instructors may have questions about lesson planning grading and classroom

management Some may be teaching in culturally and experientially diverse settings unfamiliar to them This mentoring

handbook describes but not prescribes methods materials and management strategies that can help maintain morale during

those critical first years as a college instructor Graduate teaching assistants and new college instructors often are advised

coached and mentored by department professors with little time to meet regularly with their novice educators This book

meets many of the principles outlined in the position statements of the Conference on College Composition and

Communications and the Council of Writing Program Administrators The pedagogical stances on which Planning with

Purpose lessons are based will support the work of college supervisors Using Planning with Purpose A Handbook for New

College Teachers can make pedagogical meetings with new colleagues more efficient and effective
