The Contribution Of Socratic Method And Platos Theory Of Truth To Plato Scholarship

Scott Koterbay

The Contribution Of Socratic Method And Platos Theory Of Truth To Plato Scholarship:

The Contribution of Socratic Method and Plato's Theory of Truth to Plato Scholarship Rod Jenks, 2001 In Plato's early dialogues Socrates typically draws from his interlocutors definitions of moral terms then demonstrates that these positions or their consequences are inconsistent with the definitions they have offered On numerous occasions in the early dialogues Socrates claims that this method will yield truth This study argues that Plato entertains a theory of truth according to which consistency is sufficient for truth rescuing him from the charge of having confused consistency with truth and solving the puzzle of Socratic ignorance The author also suggests a new theory of Plato's philosophical development Middle and Late Plato did not abandon Socratic philosophy rather he sought to secure its foundations The late Plato returns to Socratic method in the penultimate work of the corpus *Philebus* *Clitophon's Challenge* Hugh H. Benson, 2015-05-01 Hugh H Benson explores Plato's answer to Clitophon's challenge the question of how one can acquire the knowledge Socrates argues is essential to human flourishing knowledge we all seem to lack **The Review of Metaphysics**, 2002

Normative Theories of the Media Clifford G Christians, 2009-06-16 A contemporary analysis of mass media and modern democracy *The Potential Role of Art in Kierkegaard's Description of the Individual* Scott Koterbay, 2004 Kierkegaard scholarship has generally focused on either existential or religious issues interpreting Kierkegaard's understanding of the individual's relationship to itself and to the Christian God As a result of his description of the stages of development of the individual in the process of that relationship such scholarship has consistently ignored the inherent potential to articulate an aesthetic system which would describe art as a means of facilitating the development in a positive direction This book offers the first thorough description of a Kierkegaardian aesthetic which does not demote art to a merely sensuous and negative influence it is an explication of the specific feature of Kierkegaard's description of the individual such as communication repetition and the self within the context of a positive notion of art as well as an analysis of art itself the artist and the fundamental value of art as a profitable means of influencing the individuals While this book is unique for placing art into a central role within Kierkegaard scholarship it also remains critical of such a role maintaining the importance of recognizing the limitations which art has The final *Essays on Heidegger and European Philosophy* William Vaughan, 2002 This work answers questions such as What elements of the Pauline view of time did the supposed atheist Heidegger bring from his study of the epistles to his work *Being and Time* And why did Heidegger remain so silent about the Holocaust and his dalliance with National Socialism *The Modern Schoolman*, 2004 **The Philosophy of Sir William Mitchell (1861-1962)** W. Martin Davies, 2003 The work of Scottish born Sir William Mitchell is examined the Hughes Professor of Philosophy and Vice Chancellor of the University of Adelaide and the major philosopher who lived in South Australia **A Translation of Arthur Ahlvers' Zahl und Klang Bei Platon/Number and Sound in Plato** Arthur Ahlvers, 2002 Provides considerable help in moving to a more complex and better informed understanding of the links

between geometry music and Plato's concern for the beautiful and the good especially in those passages where the author pauses in between passages of close argument and sums up the argument so far or discusses the various other attempts to deal with notoriously obscure parts of Plato's text

Schopenhauer G. Steven Neeley, 2003 Dr Neeley seriously regards Schopenhauer's remarks about the unity harmony and consistency of his philosophy He may even be said to take Schopenhauer's consistency claims more seriously than any other major interpreter of his thought Dr Neeley who is also a lawyer as well as a professor of philosophy treats Schopenhauer as if he were a client charged with a capital offense for a philosopher i.e. producing an inconsistent philosophy The charge of inconsistency has been a demon haunting Arthur Schopenhauer's philosophy from the earliest critical reviews of his masterpiece *The World As Will and Representation* through the present If one were to derive a conclusion regarding Schopenhauer's philosophy based on the dominant themes exemplified in the secondary literature one may well infer that Schopenhauer's philosophy was the product of a brilliant but radically flawed thinker It would seem that Schopenhauer was capable of provocative ideas flashes of isolated insights which inspired some philosophers and many creative artists but that his thought was saturated with irreconcilable paradoxes and contradictions although this all was expressed in a clear and at times

Who Needs a Liberal Arts College? Alburey Castell, 2005 Alburey Castell forged the concepts agency activity and process to stake out the claims of personhood Carrying such concepts as tools into the field of education Castell drove a wedge between the humanities and the sciences As The College of Wooster continues to celebrate national recognition for its role as an outstanding liberal arts institution it is fitting that this edition of Alburey Castell's works has been published to remind us of one of the many fine educators who had a hand in building an institution devoted to the process of lifelong learning President Howard Lowry who served the college from 1944 until his death in 1967 outlined his vision for Wooster in the 1945 publication *Adventure in Education* Lowry mapped out a curriculum plan that would allow students to embrace science social sciences as well as the humanities Lowry also held firm to the belief that students should be introduced to religion and philosophy He wanted students to receive a substantial grounding in ethics that would prepare them for life beyond the classroom undergraduates for a lifetime's intellectual adventure one that will help them meet new situations as they arise one that will allow them to develop harmoniously and independently College of Wooster Bulletin Dec 1 1945 p 12 Having faculty who were firmly committed to this vision of liberal arts education was the key to Lowry's success By the time Lowry sought out Alburey Castell in 1964 to fill the position of Compton Professor of Philosophy the plan outlined in *Adventure in Education* was well underway The Independent Study Program had been established in 1948 liberal studies courses were being taught and faculty were encouraged to take research and study leaves so as to embark on their own adventure p 30

Platonic Patterns Holger Thesleff, 2009-04-07 *Platonic Patterns* is a reprint collection of many of Holger Thesleff's studies in Plato spanning from 1967 to 2003 It includes three books four articles and a

new introduction by the author which sets the general outline of his interpretation of Plato Whereas much of the scholarship on Plato has tended to operate within the frame of one language and or a single school of thought Thesleff constructively combines several discoveries and theories philosophical philological and historical of various scholars with his own research focusing on how Plato can be understood in his own context The work represents small but significant breakthroughs in research on Plato from an internationally inclusive standpoint Having previously been published mainly in Finland by scholarly societies availability outside the Nordic countries has up until now been minimal Thesleff employs his singular expertise of Greek language and literature to make innovative contributions to the study and interpretation of Plato He thematically stresses the significance of the less overt elements found in Plato s dialogues such as Plato s use of humor and his linguistic expression while taking into account the chronology and or the intended audience
