Maggie Harold Bloom, Sterling Professor of Humanities Harold Bloom, 2009 Stephen Crane s first novel Maggie A Girl of the Streets is a dark tale of a pretty yet destitute girl who struggles to emerge from a rough tenement district in New York during the Industrial Revolution *A Spectacular Secret* Jacqueline Goldsby, 2020-09-15 This incisive study takes on one of the grimmest secrets in America s national life the history of lynching and more generally the public punishment of African Americans Jacqueline Goldsby shows that lynching cannot be explained away as a phenomenon peculiar to the South or as

the perverse culmination of racist politics Rather lynching a highly visible form of social violence that has historically been shrouded in secrecy was in fact a fundamental part of the national consciousness whose cultural logic played a pivotal role in the making of American modernity To pursue this argument Goldsby traces lynching s history by taking up select mob murders and studying them together with key literary works She focuses on three prominent authors Ida B Wells Barnett Stephen Crane and James Weldon Johnson and shows how their own encounters with lynching influenced their analyses of it She also examines a recently assembled archive of evidence lynching photographs to show how photography structured the nation s perception of lynching violence before World War I Finally Goldsby considers the way lynching persisted into the twentieth century discussing the lynching of Emmett Till in 1955 and the ballad elegies of Gwendolyn Brooks to which his murder gave rise An empathic and perceptive work **A Spectacular Secret** will make an important contribution to the study of American history and literature **JEGP, Journal of English and Germanic Philology** Gustaf E. Karsten,1998 The Eye of the Reporter Bill Knight,Deckle McLean,1996 A History of American Literary Journalism John C. Hartsock,2000 This book reveals the unfolding of an important but critically neglected genre Analyzing the rift between literature and journalism Hartsock demonstrates the ways in which literary journalism attempts to narrow the gulf between subject and object His scholarship is wide and deep his prose style highly readable his conclusions carefully argued This work will help literary journalism overcome the marginalization from which it has long suffered Anthology of American Literature: Realism to the present George McMichael,2000 For courses in American Literary Survey This leading two volume anthology represents America s literary heritage from the colonial times of William Bradford and Anne Bradstreet to the contemporary era of Saul Bellow and Alice Walker Volume II begins with Walt Whitman and Emily Dickinson and moves through Toni Morrison *Reluctant Expatriate* Robert Myers,1995-08-30 This book is the first full length biographical and critical study of the American Realist author Harold Frederic 1856 1898 As London correspondent for the New York Times and the author of nine novels Frederic was internationally known at the time of his death today he is remembered mainly for his novel *The Damnation of Theron Ware* 1896 Drawing on archival and published material not available to earlier writers on Frederic Myers paints a fascinating portrait of the man and his times as an expatriate in London in the 1890s his friendship with James Crane Wells and their circle and the scandal surrounding his death at the age of 42 Frederic was a colorful fellow As a correspondent in London in the 1890s he knew Henry James Stephen Crane George Gissing and a host of other literary characters He fully lived a bohemian life keeping a real wife and a common law wife simultaneously fathering broods of children writing journalism and novels at a great rate and dying at 42 of overwork partly because he let his second wife talk him into refusing medical help leading to a scandalous court case Myers concentrates on four main themes Frederic as an expatriate his work as representative of the transition from realism to naturalism in American literature Frederic as a transitional author in the shift from 19th century to 20th century styles of publishing and Frederic as a representative of the

fin de siecle Myers has worked extensively with Frederic s correspondence as well as in publishers archives especially Scribner s and he sees Frederic as a writer who flourished just as the American literary marketplace was being transformed from the rather poky 19th century model into the faster paced 20th century version so familiar today This biography will interest not just specialists and Frederic scholars but also anyone with an interest in American literary culture in one of its defining moments
