**Nutrition and Diet Therapy** Mary Ann Hogan, Daryle Wane, 2003

**INTRODUCTION** Welcome to the new Prentice Hall Reviews and Rationales Series. This 9-book series has been specifically designed to provide a clear and concentrated review of important nursing knowledge in the following content areas: Child Health Nursing, Maternal Newborn Nursing, Mental Health Nursing, Medical Surgical Nursing, Pathophysiology, Pharmacology, Nursing Fundamentals, Nutrition and Diet Therapy, Fluids, Electrolytes.

Often this is the person with the health problem, but it may also be a significant other, relative, friend, or another nurse. Decide whether the stem is a true response stem or a false response stem. With a true response stem, the correct answer will be a true statement, and vice versa. Determine what the question is really asking, sometimes referred to as the issue of the question. Evaluate all answer options in relation to this issue and not strictly to the correctness of the statement in each individual option. Eliminate options that are obviously incorrect, then go back and reread the stem. Evaluate the remaining options against the stem once more. If two answers seem similar and correct, try to decide whether one of them is more global or comprehensive. If the global option includes the alternative option within it, it is likely that the more global response is the correct answer.
