The Reader's Art Mark Goldman, 2015-06-03 No detailed description available for *The Reader's Art* *The Man Who Tasted Shapes, revised edition* Richard E. Cytowic, 2003-08-11 In this medical detective adventure Cytowic shows how synesthesia or joined sensation illuminates a wide swath of mental life and leads to a new view of what it means to be human Richard Cytowic's dinner host apologized There aren't enough points on the chicken He felt flavor also as a physical shape in his hands and the chicken had come out too round This offbeat comment in 1980 launched Cytowic's exploration into the oddity called synesthesia He is one of the few world authorities on the subject Sharing a root with anesthesia no sensation synesthesia means joined sensation whereby a voice for example is not only heard but also seen felt or tasted The trait is involuntary hereditary and fairly common It stayed a scientific mystery for two centuries until Cytowic's original experiments led to a neurological explanation and to a new concept of brain organization that accentuates emotion over reason That chicken dinner two decades ago led Cytowic to explore a deeper reality that he argues exists in everyone but is often just below the surface of awareness which is why finding meaning in our lives can be elusive In this medical detective adventure Cytowic shows how synesthesia far from being a mere curiosity illuminates a wide swath of mental life and leads to a new view of what it means to be human a view that turns upside down conventional ideas about reason emotional knowledge and self understanding This 2003 edition features a new afterword **Catalog of Copyright Entries.
