**The GI Offensive in Europe** Peter R. Mansoor,1999 The German Wehrmacht was one of the most capable fighting forces the world has ever known but in the end it was no match for the Allies Some historians contend that the Allies achieved victory through brute force and material superiority But as Peter Mansoor argues all of the material produced by US industry was useless without trained soldiers to operate it a coherent doctrine for its use and leaders who could effectively command the formations into which it was organized

*Bracketing the Enemy* John R. Walker,2013-08-08 After the end of World War II General George Patton declared that artillery had won the war Yet howitzers did not achieve victory on their own Crucial to the success of these big guns were forward observers artillerymen on the front lines who directed the artillery fire Until now the vital role of forward observers in ground combat has received little scholarly attention In *Bracketing the Enemy* John R Walker remedies this oversight by offering the first full length history of forward observer teams during World War II As early as the U S Civil War artillery fire could reach as far as two miles but without an FO forward observer to report where the first shot had landed in relation to the target and to direct subsequent fire by outlining or bracketing the targeted range many of the advantages of longer range fire were wasted During World War II FOs accompanied infantrymen on the front lines Now for the first time gun crews could bring deadly accurate fire on enemy positions immediately as advancing riflemen encountered these enemy strongpoints According to Walker this transition from direct to indirect fire was one of the most important innovations to have occurred in ground combat in centuries Using the 37th Division in the Pacific Theater and the 87th in Europe as case studies Walker presents a

vivid picture of the dangers involved in FO duty and shows how vitally important forward observers were to the success of ground operations in a variety of scenarios FO personnel not only performed a vital support function as artillerymen but often transcended their combat role by fighting as infantrymen sometimes even leading soldiers into battle And yet although forward observers lived fought and bled with the infantry they were ineligible to wear the Combat Infantryman's Badge awarded to the riflemen they supported Forward observers are thus among the unsung heroes of World War II Bracketing the Enemy signals a long overdue recognition of their distinguished service

### **Dryden's Second Hundred Years: a**

**Central New York Town in the 20Th Century** Elizabeth Denver Gutchess,2020-11-18 Dryden's Second Hundred Years Part II does two exceptional things First its tight focus on local participation in World War II paradoxically chronicles the entire war a conflict which drew its combatants from small rural townships like Dryden NY assigned and scattered them throughout the world and then delivered the survivors back home again creating in every small American community a microcosm of the entire conflict an eye witnessing of the whole story Second that story is told here largely in local participants own words in letters from camps troopships carriers cruisers foxholes and hospitals their voices a quiet backdrop to the horrific war they had been asked to fight The resulting narrative suggests that those who don't know history while not always doomed to repeat it are very likely doomed to live their lives without perspective to mistake inconvenience for hardship and hardship for catastrophe and to be blind to the miracle of everyday normal life

### No Average Day Rona

Simmons,2024-10-24 On Tuesday October 24 1944 nearly three years after the United States entered World War II over 2 600 Americans perished more than on any other single day of the conflict yet the day remains overshadowed by more widely remembered dates in WWII history Drawing from the accounts of men from diverse backgrounds who served in the U S Army Navy Marines and Air Corps Rona Simmons offers a gripping retelling of the fateful day hour by hour and incident by incident The book begins with Army Private First Class Paul Miller's demise in a prisoner of war camp and ends with the death of Navy Seaman Second Class Wanze E Matthews after the Japanese submarine I 56 attacked his ship off New Guinea The sinking of the Japanese hellship Arisan Maru a lesser known tragedy of the war looms large deftly interwoven through each part of the narrative Perhaps the most compelling aspect of No Average Day is its attention to the human side of conflict telling the stories of ordinary individuals clerks radio operators cooks sailors machinist mates riflemen and pilots and their air crews as they grapple with the horrors of the war Despite its narrow focus or perhaps because of it No Average Day reveals the vastness of World War II through a consideration of the largely overlooked events that unfolded on what for members of the US Armed Forces was its deadliest day
