The Cultural Turn In Late Ancient Studies Gender Asceticism And Historiography:

The Cultural Turn in Late Ancient Studies Philip Rousseau, 2005-04-28 Collection of essays that focuses on questions of gender and culture in early Christianity

Children and Asceticism in Late Antiquity Ville Vuolanto, 2016-03-03 In Late Antiquity the emergence of Christian asceticism challenged the traditional Greco Roman views and practices of family life The resulting discussions on the right way to live a good Christian life provide us with a variety of information on both ideological statements and living experiences of late Roman childhood This is the first book to scrutinise the interplay between family children and asceticism in the rise of Christianity Drawing on texts of Christian authors of the late fourth and early fifth centuries the volume approaches the study of family dynamics and childhood from both ideological and social historical perspectives It examines the place of children in the family in Christian ideology and explores how families in the late Roman world adapted these ideals in practice Offering fresh viewpoints to current scholarship Ville Vuolanto demonstrates that there were many continuities in Roman ways of thinking about children and despite the rise of Christianity the old traditions remained deeply embedded in the culture Moreover the discussions about family and children are shown to have been intimately linked to worries about the continuity of family lineage and of the self and to the changing understanding of what constituted a meaningful life

A Companion to Women in the Ancient World Sharon L. James, Sheila Dillon, 2012-02-13 A COMPANION TO WOMEN IN THE ANCIENT WORLD A Companion to Women in the Ancient World is the first interdisciplinary methodologically based collection of readings to address the study of women in the ancient world while weaving textual visual and archaeological evidence into its approach Prominent scholars tackle the myriad problems inherent in the interpretation of the evidence and consider the biases and interpretive categories inherited from centuries of scholarship Essays and case studies cover an unprecedented breadth of chronological and geographical range genres and themes Illuminating and insightful A Companion to Women in the Ancient World both challenges preconceived notions and paves the way for new directions in research on women in antiquity

The Cambridge History of Ancient Christianity Bruce W. Longenecker, David E. Willits, 2023-08-24 The first three hundred years of the common era witnessed critical developments that would become foundational for Christianity itself as well as for the societies and later history that emerged thereafter The concept of ancient Christianity however along with the content that the category represents has raised much debate This is in part because within this category lie multiple forms of devotion to Jesus Christ multiple phenomena and multiple permutations in the formative period of Christian history Within those multiples lie numerous contests as varieties of Christian identity laid claim to authority and authenticity in different ways The Cambridge History of Ancient Christianity addresses these contested areas with both nuance and clarity by reviewing synthesizing and critically engaging recent scholarly developments The 27 thematic chapters

specially commissioned for this volume from an international team of scholars also offer constructive ways forward for future research *The Wiley Blackwell Companion to Patristics* Ken Parry, 2015-09-08 This comprehensive volume brings together a team of distinguished scholars to create a wide ranging introduction to patristic authors and their contributions to not only theology and spirituality but to philosophy ecclesiology linguistics hagiography liturgics homiletics iconology and other fields Challenges accepted definitions of patristics and the patristic period in particular questioning the Western framework in which the field has traditionally been constructed Includes the work of authors who wrote in languages other than Latin and Greek including those within the Coptic Armenian Syriac and Arabic Christian traditions Examines the reception history of prominent as well as lesser known figures debating the role of each and exploring why many have undergone periods of revived interest Offers synthetic accounts of a number of topics central to patristic studies including scripture scholasticism and the Reformation Demonstrates the continuing role of these writings in enriching and inspiring our understanding of Christianity Jewish, Christian, and Classical Exegetical Traditions in Jerome's Translation of the Book of Exodus Matthew A. Kraus, 2017-04-03 In *Jewish Christian and Classical Exegetical Traditions in Jerome's Translation of the Book of Exodus* Translation Technique and the Vulgate Matthew Kraus offers a layered understanding of Jerome's translation of biblical narrative poetry and law from Hebrew to Latin Usually seen as a tool for textual criticism when read as a work of literature the Vulgate reflects a Late Antique conception of Hebrew grammar critical use of Greek biblical traditions rabbinic influence Christian interpretation and Classical style and motifs Instead of typically treating the text of the Vulgate and Jerome himself separately Matthew Kraus uncovers Late Antiquity in the many facets of the translator at work grammarian biblical exegete Septuagint scholar Christian intellectual rabbinic correspondent and devotee of Classical literature *Melania* Catherine Michael Chin, Caroline T. Schroeder, 2016-10-25 *Melania the Elder and her granddaughter Melania the Younger* were major figures in early Christian history using their wealth status and forceful personalities to shape the development of nearly every aspect of the religion we now know as Christianity This volume examines their influence on late antique Christianity and provides an insightful portrait of their legacies in the modern world Departing from the traditionally patriarchal view *Melania* gives a poignant and sometimes surprising account of how the rise of Christian institutions in the Roman Empire shaped our understanding of women's roles in the larger world *Female founders in Byzantium and beyond* Lioba Theis, Margaret Mullett, Michael Grünbart, 2014 This volume presents the results of a scholarly meeting which focused on the patronage of women in the Byzantine Empire In their scope the articles address broadly not only the founding or re founding of churches and monasteries but also their rich decoration as well as numerous smaller donations In spite of increased attention to gender research in recent years a comparative treatment of the legal and economic potential that women in Byzantium could exercise in order to exert independent influence has been lacking thus a gender specific viewpoint for the volume was intentionally chosen *A Feminist Companion to Patristic Literature* Amy-Jill Levine, Maria Mayo Robbins, 2008-07 In its

twelfth volume this text examines a number of Patristic texts and early Christian documents from a feminist perspective

Collection Latomus ,2014 **Studies in Byzantine, Islamic and Near Eastern Silk Weaving** Anna Muthesius,2008

This volume complements Anna Muthesius two earlier ground breaking volumes in the field of silk as material culture *Studies in Byzantine and Islamic Silk Weaving* and *Studies in Silk in Byzantium* The publication highlights the fact that similar patterns of selection were at work in the acquisition of silks by secular and ecclesiastical bodies These patterns of selection were governed not only by fashions of the time but by access to international trade routes leading to the Great Silk Road linking the Near East to the Mediterranean The surviving silks prove that Mediterranean Near Eastern silk trade flourished continuously and for centuries prior to the thirteenth century contrary to what has previously widely been assumed It also highlights the crucial role of the Caucasian silk routes in accessing the Great Silk Road in the early period and the contribution of Georgian and Armenian silk weaving after the thirteenth century Above all the book demonstrates how important it is to assess the impact of Near Eastern silk manufacture and distribution in relation to Byzantine and Islamic Mediterranean silk production and trade Journal of ancient Christianity ,2005 Women and Gender in Ancient Religions Stephen P. Ahearne-Kroll,Paul A. Holloway,James A. Kelhoffer,2010 Revised versions of papers given at the conference *Women in the Religious and Intellectual Activity of the Ancient Mediterranean World an Interdisciplinary and International Conference in Honor of Adela Yarbro Collins* held March 15 17 2009 at the Methodist Theological School in Ohio and The Ohio State University Intro p 1 **Bibliographic Index** ,2007 *The Role of Vestal Virgins in Roman Civic Religion* Lindsay J. Thompson,2010 This study introduces a question somewhat disregarded or discounted in recent years regarding the link between the Vestals and early Christian consecrated virgins In a political interpretation of the ancient Roman virginity cult this work demonstrates that female virginity was understood by both Christian and non Christian Romans as a symbolic analogue of the securely intact body politic **The American Benedictine Review** ,2007
