The Cutter Incident How Americas First Polio Vaccine Led To The Growing Vaccine Crisis:

The Cutter Incident Paul A. Offit, 2005-10-10 A history and analysis of the tragic 1955 American pharmaceutical disaster involving one company's polio vaccine. Vaccines have saved more lives than any other single medical advance. Yet today only four companies make vaccines and there is a growing crisis in vaccine availability. Why has this happened? This remarkable book recounts for the first time a devastating episode in 1955 at Cutter Laboratories in Berkeley, California, that has led many pharmaceutical companies to abandon vaccine manufacture. Drawing on interviews with public health officials, pharmaceutical company executives, attorneys, Cutter employees, and victims of the vaccine, as well as on previously unavailable archives, Dr. Paul Offit offers a full account of the Cutter disaster. He describes the nation's relief when the polio vaccine was developed by Jonas Salk in 1955, the production of the vaccine at industrial facilities such as the one operated by Cutter, and the tragedy that occurred when 200,000 people were inadvertently injected with live, virulent polio virus. 70,000 became ill, 200 were permanently paralyzed, and 10 died. Dr. Offit also explores how, because of the tragedy, one jury's verdict set in motion events that eventually suppressed the production of vaccines already licensed and deterred the development of new vaccines that hold the promise of preventing other fatal diseases. Praise for *The Cutter Incident*: Offit has written a fascinating and highly readable account of the development of the polio vaccine. He also offers a compelling plea for a strengthened law to provide relief to companies that produce vaccines so that our nation may be afforded the most cost effective and long lasting form of prevention against many infectious diseases. *An effective vaccine*, Stanley Goldfarb, *New York Post*. *The best account you will ever read about the interplay between big drug companies and bigger government*, Peter Huber, *Forbes*. The book is very well written and reads almost like a detective story with a nice balance between personal anecdotes and new materials not discussed in other accounts of the Cutter incident. It draws on meticulous archival documentation and on interviews with public health officers, pharmaceutical company executives, Cutter employees, and victims of the partially inactivated vaccine. *An important and valuable contribution*, Nadav Davidovitch, *Isis*. Well written and easily understood yet balanced with enough technical detail for medical professionals to read informatively cover to cover. *Journal of the American Medical Association*

Plague Kent Heckenlively, Judy Mikovits, 2017-02-21 On July 22, 2009, a special meeting was held with twenty-four leading scientists at the National Institutes of Health to discuss early findings that a newly discovered retrovirus was linked to chronic fatigue syndrome, CFS, prostate cancer, lymphoma, and eventually neurodevelopmental disorders in children. When Dr. Judy Mikovits finished her presentation, the room was silent for a moment, then one of the scientists said, "Oh my God." The resulting investigation would be like no other in science. For Dr. Mikovits, a twenty-year veteran of the National Cancer Institute, this was the midpoint of a five-year journey that would start with the founding of the Whittemore Peterson Institute for Neuro Immune Disease at the University of Nevada Reno and end with her as a witness for the federal government against her former employer, Harvey Whittemore, for illegal campaign contributions.

to Senate Majority Leader Harry Reid On this journey Dr Mikovits would face the scientific prejudices against CFS wander into the minefield that is autism and through it all struggle to maintain her faith in God and the profession to which she had dedicated her life This is a story for anybody interested in the peril and promise of science at the very highest levels in our country **Herding Immunity** Stacy Mintzer Herlihy,2024-11-05 A look at the long history of vaccines yesterday today and still to come In **Herding Immunity** Stacy Mintzer Herlihy explores the compelling history of vaccines and the equally long history of vaccination opposition By connecting the contemporary anti vax movement with its historical roots Herlihy integrates modern conversations and reveals the profound impact vaccines have had on our society highlighting the urgent need for societal change to ensure equitable vaccination for all **Pharma** Gerald Posner,2021-04-13 Exorbitant prices for lifesaving drugs safety recalls affecting tens of millions of Americans and soaring rates of addiction and overdose on prescription opioids have caused many to lose faith in pharmaceutical companies Now Americans are demanding national reckoning with a monolithic industry In **Pharma** award winning journalist and New York Times best selling author Gerald Posner uncovers the real story of the Sacklers the family that became one of America's wealthiest from the success of OxyContin their blockbuster narcotic painkiller at the centure of the opioid crisis The unexpected twists and turns of the Sakler family saga are told against the startling chronicle of a powerful industry that sits at the intersection of public health and profits **Pharma** reveals how and why American drug companies have put earnings ahead of patients **Plotkin's Vaccines,E-Book** Walter A.
