The Culture Watch Essays On Theatre And Society 1969 1974:

Modern Drama in Theory and Practice: Volume 1, Realism and Naturalism J. L. Styan, 1981 This 1981 volume begins with the French revolt against naturalism in theatre and then covers the European realist movement **George Oppen and the Fate of Modernism** Peter Nicholls, 2007-10-25 Regard for George Oppen's poetry has been growing steadily over the last decade. Peter Nicholls's study offers a timely opportunity to engage with a body of work which can be both luminously simple and intriguingly opaque. Nicholls charts Oppen's commitment to Marxism and his later explorations of a poetics of being inspired by Heidegger and Existentialism, providing detailed accounts of each of the poet's books. He is the first critic to draw extensively on the Oppen archive with its thousands of pages of largely unpublished notes and drafts for poems; in doing so he is able to map the distinctive contours of Oppen's poetic thinking and to investigate the complex origins of many of his poems. Oppen emerges from this study as a writer of mercurial intensities for whom every poem constitutes a beginning again a freeing of the mind from thoughts known in advance. A strikingly innovative and challenging poetics results from Oppen's attempt to avoid what he regards as the errors of the modernist avant garde and to create instead a designedly impoverished aesthetic which keeps poetry close to the grain of experience and to the political and ethical dilemmas it constantly poses.

Brendan Behan E.H. Mikhail, 1980-06-18 Plays of Impasse Carol Rosen, 2017-03-14 A study of post World War II plays set in total institutions such as hospitals, psychiatric wards, prisons, and military bases. Plays of Impasse probes the structure and significance of the numerous and highly visible plays set in contemporary society's dead ends—the hospitals, psychiatric wards, prisons, and military training camps so aptly described by Irving Goffman as total institutions. Carol Rosen shows how the setting in these plays tends to engulf and then to exclude the audience, turning an encompassing stage structure a closed, controlling, absolute system into a protagonist that overwhelms the characters. In discussions ranging from Harold Pinter's *The Hothouse* to Samuel Beckett's *Endgame*, she further maintains that the impasse of characters in reductive environments supplies a unifying image for post World War II drama in general. This state of impasse pervades contemporary drama. Everyday activities and attempts to endure life in a parenthesis are vacated of traditional social or moral meaning onstage. The pain of this kind of survival, spatially fixed, is at the heart of *Endgame*; for example, an extreme instance of this mode of drama at the edge of existence. In plays such as Peter Nichols's *The National Health*, Peter Weiss's *Marat Sade*, Friedrich Dürrenmatt's *The Physicists*, David Storey's *Home*, Brendan Behan's *The Quare Fellow*, Jean Genet's *Deathwatch*, and David Rabe's *The Basic Training of Pavlo Hummel*, the splintered self like the divided society strives to endure against enormous codified odds. Even in plays not depicting the rigidity of institutions, the contemporary dramatic mode is finally characterized by sparse, introspective action in a closed system, an onstage model of a world gone awry, a world at an impasse.
