Lemon, 1888 *Places That Matter* Dr. Joan Ferrante, 2018-07-24 Places that Matter asks the reader to identify a place that matters in their life their home a place of worship a park or some other site that acts as an emotional and physical anchor and connects them to a neighborhood Then readers are asked In what ways do I currently support or fail to support that neighborhood Should support be increased If so in what ways Joan Ferrante guides students through a learning experience that engages qualitative and quantitative research and culminates in writing a meaningful plan of action or research brief Students are introduced to basic concepts of research and are exposed to the experiences of gathering and drawing on data related to something immediate and personal The class tested exercises are perfect for courses that emphasize action based research and social responsibility The book's overarching goal is to help students assess their neighborhood's needs and strengths and then create a concrete plan that supports that neighborhood and promotes its prosperity Accompanying the book is a facilitator's companion website to guide action based research experiences which includes rubrics that are aligned to common learning objectives and are also designed to make tracking and reporting easier **House documents**, 1893

Localism and the Ancient Greek City-State Hans Beck, 2022-12-22 A Greek historian investigates the importance of local identity in the Mediterranean world in a rare genuinely original book Highly recommended Choice Much as our modern world is interconnected through global networks the ancient Greek city states were a dynamic part of the wider Mediterranean landscape In Localism and the Ancient Greek World historian Hans Beck argues that local shifts in politics religion and culture had a pervasive influence in a world of fast paced change Citizens in these communities were deeply concerned with maintaining local identity commercial freedom distinct religious cults and much more Beyond these cultural identifiers there lay a deeper concept of the local that guided polis societies in their contact with a rapidly expanding world Drawing on a staggering range of materials including texts by both known and obscure writers numismatics pottery analysis and archeological records Beck develops fine grained case studies that illustrate the significance of the local experience Localism and the Ancient Greek City State builds bridges across disciplines and ideas within the humanities It highlights the

importance of localism not only in the archaeology of the ancient Mediterranean but also in today's conversations about globalism networks and migration

**Swedish Ventures in Cameroon, 1883-1923** Shirley Ardener, 2002-08-01 The 1880s were a critical time in Cameroon A German warship arrived in the Douala estuary and proclaimed Cameroon a protectorate At that time two Swedes Knutson and Waldau were living on the upper slopes of the Cameroon Mountain Very little is known about their activities One Knutson wrote a long memoir of his time in Cameroon 1883-1895 which is published here for the first time It gives fascinating insights into everyday life in Cameroon and into the multifaceted relationships among the various Europeans and between them and the Africans at the end of the 19th century we learn about the Swedes quarrels first with the Germans and later with the British over land purchases thus revealing the origins of long on going disputes over Bakweri lands We are given vivid descriptions of Bakweri notables and their and the Europeans cultural practices a rare eye witness account of the sassafras witchcraft ordeal and learn about Knutson's friendships with slaves Together with appended contemporary correspondence legal opinions and early translated texts this memoir must be considered as a unique and invaluable primary source for the pre colonial history of Cameroon
