People-led Urban Development in Vietnam Hoài Anh Trần, Ngai Ming Yip, 2025-08-08 This book provides an analysis of urban development in Vietnam with a focus on activities carried out by ordinary people Using Hanoi as a case study this book offers a rich ethnographic account of people led development emphasising spatial practices of the emerging middle lower middle and small entrepreneurial classes In this book the concept practice is integrated with Lefebvre's framework of the production of differential space to conceptualise the diverse and seemingly ad hoc space making activities of urban residents situating these in relation to the state's disciplining projects through housing and urban planning Moving beyond a simplistic dichotomised discussion of informality and formality temporality and permanence this book highlights the tensions between the state visions of modernised urbanisation and the everyday space making practices of ordinary people It offers a

substantive narrative and an in depth analysis of the power relations social hierarchies and complex interactions that are embedded within the differential spaces created by diverse interstitial practices in Hanoi As a novel contribution to the literature highlighting the entrepreneurialism of the subaltern and the role of ordinary people in urban development this book will be of interest to researchers of Vietnam s urban development Southeast Asian Studies Urban Studies and the Global South Hearings ,1962 Dimensions of Soviet Economic Power; Studies United States.
