Hence a simple composite index the Small State Manufactured Export CP Index or SSMECI was developed to benchmark industrial CP. The SSMECI represents the first attempt to provide a comprehensive picture of the CP performance of small states. The performance of small states varies across geographical regions income groups country size classes. High performing small states had better macroeconomic conditions higher levels of foreign investment more trade openness better levels of education modern infrastructure. A coherent market oriented CP strategy in small states is vital to success on international markets.
