## Social Interaction In Chinese Society:

**Social Interaction in Chinese Society** Sidney L. Greenblatt, Richard W. Wilson, Amy Auerbacher Wilson, 1982     *The Individualization of Chinese Society* Yunxiang Yan, 2020-08-19 Chinese society has seen phenomenal change in the last 30 years Two of the most profound changes have been the rise of the individual in both public and private spheres and the consequent individualization of Chinese society itself Yet despite China's recent dramatic entrance into global politics and economics neither of these significant shifts has been fully analysed China may indeed present an alternative model of social transformation in the age of globalisation so its path to development may have particular implications for the developing world The Individualization of Chinese Society reveals how individual agency has been on the rise since the 1970s and how this has impacted on everyday life and Chinese society more broadly The book presents a wide range of detailed case studies on the impact of economic policy patterns of kinship changes in marriage relations and the socio economic position of women the development of youth culture the politics of consumerism and shifting power relations in everyday life     Youth Policies and Services in Chinese Societies Steven Sek-yum Ngai, Chau-kiu Cheung, Ngan-pun Ngai, 2018-02-02 In recent decades much of youth research in Chinese societies has sought to understand the transformation of the younger generation and their social environment in the context of globalization deindustrialization and economic insecurity The epochal events of the global economic transformation and financial crisis along with long term Chinese social trends such as rising unemployment income disparity and migration are in the process of creating new structural relations between young people and related social actors Accordingly this book charts the current conditions of youth services and policies in Chinese societies by examining case studies in Beijing Jinan Shanghai Tianjin and Hong Kong The chapters address the related issues stemming from unemployment volunteering internal migration economic disadvantages school social work and leadership training Through comparative analyses of the aforementioned issues the collection highlights contemporary issues in Chinese youth policies and services including work commitment social inclusion social support from family and teachers volunteering and leadership training The book argues that the strengthening of empowerment and social inclusion in Chinese youth services offers a solution to problems of alienation powerlessness and underclass status The quest for social inclusion therefore merits renewed attention in the youth policies and services of Chinese societies This was originally published as a special issue of the International Journal of Adolescence and Youth     **Inner Experience of the Chinese People** Xiaohong Zhou, 2017-10-24 This book comprehensively explores the changes in the Chinese spiritual world from the perspective of transition and transformation Chinese feeling a brand new concept corresponding to Chinese experience refers to the vicissitudes that 1.3 billion Chinese people have been through in their spiritual worlds The book discusses this concept together with Chinese experience two aspects of the transformation of the Chinese mentality that resulted from the unprecedented social changes since 1978 and which have given this unique era historical meaning and cultural values At the

same time they offer a dual perspective for understanding this great social transition. Further the book considers what will happen if we only focus on the Chinese Experience while neglecting the Chinese Feeling the changes the Chinese people undergo when their desires, wishes and personalities have changed China and how their emotionally charged social mentality follow ebbs and flows of the changing society. Lastly it asks what embarrassment and frustration the population will be faced with next after the tribulations their spiritual world has already been through

Social Problems, 1978 Students and the Missionary Problem Student Volunteer Missionary Union. International Conference, 1900 *Cooperation in Chinese Communities* Charles Stafford, Ellen R. Judd, Eona Bell, 2020-05-26 When humans cooperate what are the social and psychological mechanisms that enable them to do so successfully? Is cooperativeness something natural for humans built in to our species over the course of evolution or rather something that depends on cultural learning and social interaction? This book addresses these central questions concerning human nature and the nature of cooperation. The editors present a wide range of vivid anthropological case studies focused on everyday cooperation in Chinese communities for example between children in Nanjing playing a ballgame, parents in Edinburgh organising a community school, villagers in Yunnan dealing with common pool resource problems and families in Kinmen in Taiwan worshipping their dead together. On the one hand these case studies illustrate some uniquely Chinese cultural factors such as those related to kinship ideals and institutions that shape the experience and practice of cooperation. They also illustrate on the other hand how China's recent history, not least the rise and fall of collectivism in various forms, continues to shape the experience of cooperation for ordinary people in China today. Finally they show that in spite of the cultural and

historical particularity of Chinese cooperation it does share some underlying features that would be familiar to people coming from radically different backgrounds    **China and Its People** William Henry Withrow,1894    A General View of Chinese Civilization and of the Relations of the West with China Pierre Laffitte,1887    "The" Athenaeum ,1880
