Demographics of Schooling Lani Florian,Nataša Pantić,2017-04-09 The book takes as its premise the argument that diverse learner groups are a fact of demographic change that should be considered foundational in the preparation of teachers rather than be problematized as a challenge It promotes the idea of teacher education for inclusive education based on a consideration of what it means to educate all children together Divided into four parts the book considers key issues for teacher education teacher agency teacher education for diversity and a research agenda for the future In today s world the demographic profile of students in schools is more complex than ever before and the increasing cultural linguistic and developmental diversity of today s classrooms along with the pressure to achieve high academic standards for everybody has significant implications for how classroom teachers should be prepared to meet these demands This book advances a new understanding of inclusive education that addresses the limitations inherent in current approaches that problematize
