The Concise Oxford Dictionary Of Art And Artists Isbn 0192800485:

Walford's Guide to Reference Material: Generalia, language and literature, the arts Albert John Walford, 1998
From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials. No rigid definition of reference is applied. In addition to the expected bibliographies, indexes, dictionaries, encyclopaedias and directories, a number of important textbooks and manuals of general practice are included. While the majority of the items are books, Walford is a guide to reference material. Thus periodical articles, microforms, online and CD ROM sources are all represented. In this volume, a particular effort has been made to improve coverage of the latter two categories.

The Concise Oxford Dictionary of Art and Artists Ian Chilvers, 1996. Based on the highly praised Oxford Dictionary of Art, this is an authoritative and up-to-date guide to Western art from Ancient Greece to the present day. For this second edition, much new material has been added on twentieth-century art, including subjects such as Neo-Expressionism and the Turner Prize, and the book is ideal for students and anyone who enjoys visiting art galleries. Over 2,000 entries on painting, sculpture and the graphic arts. Includes artists ranging from Botticelli to Grandma Moses and Andy Warhol. Leading collectors, dealers, writers and patrons. Entries are often enlivened by quotations from artists and critics. From the reviews of its parent volume, the best and most inclusive single volume available, immensely useful and very well written. Marina Vaisey, Sunday Times. An essential addition to the bookshelves of any art lover. Good Book Guide.

The Concise Oxford Dictionary of Art and Artists Ian Chilvers, 1996 **The Concise Oxford Dictionary of Art and Artists** Ian Chilvers, 2005 The Oxford Dictionary of Art and Artists Ian Chilvers, 2017-09-27. Covering Western art from the ancient Greeks to the present day, this best-selling and authoritative dictionary is more wide-ranging than any comparable reference work. It contains over 2,500 clear and concise entries on styles and movements, materials and techniques, and museums and galleries. It also includes biographical entries for artists, critics, collectors, dealers, and patrons, with places and full dates of birth and death in many instances, correcting misinformation that has found its way into other sources. For this new edition, entries have been thoroughly revised and updated, and more than fifty new entries have been added, for example Tracey Emin and Jack Vettriano. Browsers and readers with an interest in a particular area will benefit from the classified list of all the entries in the book, an invaluable innovation that makes it easy to see immediately which collectors, for example, or 18th-century French artists, or printmaking terms, are included in the dictionary. Written in an engaging manner, with many entries enlivened by quotations from artists and critics, this dictionary is a pleasure to browse, whilst its A-Z structure and classified list makes it perfect for quick reference. Previously entitled The Concise Oxford Dictionary of Art and Artists, this major new edition is essential for students and teachers of art, design, art theory, and art history, and it is ideal for artists, visitors to art exhibitions and galleries, and anyone with an interest in art.
