The Computer and Literary Studies A. J. Aitken, Richard W. Bailey, N. Hamilton-Smith, 1973 **The Computer and Literary Studies** A. J. Aitken, Richard W. Bailey, N. Hamilton-Smith, 1973 **THE COMPUTER AND LITERARY STUDIES-2ND SYMPOSIUM ON THE USES OF COMPUTERS IN LITERARY RESEARCH- PAPERS.**, *The Computer and Literary Studies* Roy Albert Wisbey, 1971 **A Companion to Digital Literary Studies** Ray Siemens, Susan Schreibman, 2013-03-20 This Companion offers an extensive examination of how new technologies are changing the nature of literary studies from scholarly editing and literary criticism to interactive fiction and immersive environments. A complete overview exploring the application of computing in literary studies. Includes the seminal writings from the field. Focuses on methods and perspectives, new genres, formatting issues and best practices for digital preservation. Explores the new genres of hypertext, literature installations, gaming and web blogs. The Appendix serves as an annotated bibliography. *Hypermedia and Literary Studies* Paul Delany, George P. Landow, 1991 The essays in Hypermedia and Literary Studies discuss the theoretical and practical opportunities and challenges posed by the convergence of hypermedia systems and traditional written texts. Consider a work from Shakespeare. Imagine as you read it being able to call up instantly the Elizabethan usage of a particular word variant texts for any part of the work, critical commentary, historically relevant facts or oral interpretations by different sets of actors. This is the sort of richly interconnected, immediately accessible literary universe that can be created by hypertext, electronically linked texts and hypermedia, the extension of linkages to visual and aural material. The essays in Hypermedia and Literary Studies discuss the theoretical and practical opportunities and challenges posed by the convergence of hypermedia systems and traditional written texts. They range from the theory and design of literary hypermedia to reports of actual hypermedia projects from secondary school to university and from educational and scholarly to creative applications in poetry and fiction. Contents: Hypertext, Hypermedia and Literary Studies, Theory, Reading and Writing the Electronic Book, From Electronic Books to Electronic Libraries, Revisiting Reading and Writing the Electronic Book, The Rhetoric of Hypermedia, Some Rules for Authors, Topographic Writing, Hypertext and the Electronic Writing Space, Reading from the Map, Metonymy and Metaphor in the Fiction of Forking Paths, Poem Descending a Staircase, Hypertext and the Simultaneity of Experience, Reading Hypertext, Order and Coherence in a New Medium, Threnody, Psychoanalytic Digressions on the Subject of Hypertexts, Applications, Biblical Studies and Hypertext, Ancient Materials, Modern Media, Shaping the Study of Classics with Hypertext, Linking Together Books, Adapting Published Material into Intermedia, Documents, The Shakespeare Project, The Emblematic Hyperbook, HyperCard, Stacks for Fielding's Joseph Andrews, Issues of Design and Content, Hypertext for the PC, The Rub n Dario Project, Hypermedia in Schools. **The Digital Humanities and Literary Studies** Martin Paul Eve, 2021-12-17 A comprehensive overview into digital literary studies that equips readers to navigate the difficult contentions in this space. The Literary Agenda is a series of short polemical monographs about the

importance of literature and of reading in the wider world and about the state of literary education inside schools and universities The category of the literary has always been contentious What is clear however is how increasingly it is dismissed or is unrecognised as a way of thinking or an arena for thought It is sceptically challenged from within for example by the sometimes rival claims of cultural history contextualized explanation or media studies It is shaken from without by even greater pressures by economic exigency and the severe social attitudes that can follow from it by technological change that may leave the traditional forms of serious human communication looking merely antiquated For just these reasons this is the right time for renewal to start reinvigorated work into the meaning and value of literary reading You may have heard of the digital humanities and what you may have heard may not have been good Yet like an oncoming storm the relentless growth of the use of digital methods for the study of literature seems inevitable This book gives an insight into the ways in which digital approaches can be used to study literature and the ways in which humanistic study can be used to explore digital literature Examining its subject across the axes of authorship space and visualization maps and place distance and history and ethical approaches to the digital humanities this book introduces newcomers to the topic while also offering plenty for seasoned digital humanities pros Combining original research with third party case studies and examples this book will appeal both to students and researchers across all levels who wish to learn about digital literary studies

Directions in Empirical Literary Studies Sonia Zyngier,2008-01-01 Directions in Empirical Literary Studies is on the cutting edge of empirical studies and is a much needed volume It both widens the scope of empirical studies and looks at them from an intercultural perspective by bringing together renowned scholars from the fields of philosophy sociology psychology linguistics and literature all focusing on how empirical studies have impacted these different areas Theoretical issues are discussed and solid methods are presented Some chapters also show the relation between empirical studies and new technology examining developments in computer science and corpus linguistics This book takes a global perspective with contributors from many different countries both senior and junior researchers Broad in scope and interdisciplinary in nature it contributes with the state of the art developments in the field
