**Military Ethos and Visual Culture in Post-conquest Mexico** Mónica Domínguez Torres, 2013

Bringing to bear her extensive knowledge of the cultures of Renaissance Europe and sixteenth century Mexico, Mónica Domínguez Torres here investigates the significance of military images and symbols in post-Conquest Mexico. She shows how the conquest in fact involved dynamic exchanges between cultures and that certain interconnections between martial, social and religious elements resonated with similar intensity among Mesoamericans and Europeans, creating indeed cultural bridges between these diverse communities. Multidisciplinary in approach, this study builds on scholarship in the fields of visual, literary and cultural studies to analyse the European and Mesoamerican content of the martial imagery fostered within the indigenous settlements of central Mexico, as well as the ways in which local communities and leaders appropriated, manipulated, modified and reinterpreted foreign visual codes. *Military Ethos and Visual Culture in Post-Conquest Mexico* draws on post-structuralist and post-colonial approaches to analyse the complex dynamics of identity formation in colonial communities. Grant D. Jones, 1998 On March 13 1697 Spanish troops from Yucatán attacked and occupied Nojpeten the capital of the Maya people known as Itzas the inhabitants of the last unconquered native New World kingdom This political and ritual center located on a small island in a lake in the tropical forests of northern Guatemala was densely covered with temples royal palaces and thatched houses and its capture represented a decisive moment in the final chapter of the Spanish conquest of the Mayas The capture of Nojpeten climaxed more than two years of preparation by the Spaniards after efforts by the military forces and Franciscan missionaries to negotiate a peaceful surrender with the Itzas had been rejected by the Itza ruling council and its ruler Ajaw Kan Ek The conquest far from being final initiated years of continued struggle between Yucatecan and Guatemalan Spaniards and native Maya groups for control over the surrounding forests Despite protracted resistance from the native inhabitants thousands of them were forced to move into mission towns though in 1704 the Mayas staged an abortive and bloody rebellion that threatened to recapture Nojpeten from the Spaniards The first complete account of the conquest of the Itzas to appear since 1701 this book details the layers of political intrigue and action that characterized every aspect of the conquest and its aftermath The author critically reexamines the extensive documentation left by the Spaniards presenting much new information on Maya political and social organization and Spanish military and diplomatic strategy This is not only one of the most detailed studies of any Spanish conquest in the Americas but also one of the most comprehensive reconstructions of an independent Maya kingdom in the history of Maya studies In presenting the story of the Itzas the author also reveals much about neighboring lowland Maya groups with whom the Itzas interacted often violently
