The Constitutional Process In Canada:

The Constitutional Process in Canada Ronald I. Cheffins, Ronald N. Tucker, 1976 **The Tangled Complexity of the EU Constitutional Process** Giuseppe Martinico, 2013 Despite or perhaps because of the rejection of the EU Constitutional Treaty eventually leading to the adoption of the Lisbon Treaty the debates concerning the European Union's constitutional framework continue. This book builds on the discourse in European Union constitutionalism in order to offer a novel analysis of the EU's constitutional developments. The book considers the constitutional trends of the process of EU integration before applying a transdisciplinary concept of complexity developed in the work of Edgar Morin to the EU. In doing this Giuseppe Martinico sets out a unique account of EU constitutionalism which argues that the EU legal order is a complex entity which shares some features with complex natural systems. The book then goes on to explore the methodological implications of such constitutional complexity for the study of EU law.

Constitutional Politics in Canada after the Charter Patrick James, 2011-01-01 The Charter of Rights and Freedoms was introduced in 1982. Since then Canada has experienced more than twenty five years of constitutional politics and countless debates about whether the Canadian federation is integrating or disintegrating. There has however been no systematic attempt to identify general theories about Canada's constitutional evolution. Patrick James corrects this oversight by using systemism a concept drawn from the philosophy of science to identify and assess five theories that fall into the liberal or communitarian paradigms. These theories are examined in the context of major issues such as the role of the courts or the status of Aboriginal peoples and debates among advocates and critics of each theory are used to work toward a greater understanding of constitutional wrangling in Canada. By adding clarity to familiar debates this succinct assessment of major writings on constitutional politics sharpens our vision of the past and the future of the Canadian federation.

Canada: The State of the Federation 1991 Douglas M. Brown, 1991 Essential Readings in Canadian Constitutional Politics Peter H.

Russell, Christian Leuprecht, 2011-01-01 Essential Readings in Canadian Constitutional Politics introduces students, scholars and practitioners to classic authors and writings on the principles of the Canadian Constitution as well as to select contemporary material. To complement rather than duplicate the state of the field it deals with the Canadian Charter of Rights and Freedoms and with Canadian mega constitutional politics in passing only focusing instead on institutions, federalism, intergovernmental relations, bilingualism and binationalism, the judiciary, minority rights and constitutional renewal. Many of the selections reverberate well beyond Canada's borders making this volume an unrivalled resource for anyone interested in constitutional governance and democratic politics in diverse societies.
