**New Fathers? Contemporary American Stories of Masculinity, Domesticity and Kinship** Helena Wahlström, 2010-10-12 What do novels such as Annie Proulx's *The Shipping News* Michael Cunningham's *A Home at the End of the World* and Jayne Anne Phillips' *MotherKind* have in common with films such as *Smoke* and *Mrs Doubtfire*? This study explores the intersection of masculinity and domesticity in contemporary film and literature. It argues that these texts produced since the 1990s address with some urgency the notion of new fatherhood in the United States. They offer explorations of the idea that American fatherhood around the turn of the twenty first century is changing and they problematize the legitimacy of new fathers and alternative families in a national culture where the old patriarch and the nuclear family still often loom large in the imagination of many Americans

*Representing the Contemporary North American Family* Sophie Chapuis,Marie Moreau,2021-10

The rise in individualism and the growing liberalism of family law may be seen as potential threats to the family as a unit Currently defenders of traditional family models are being forced to accept a more fluid definition of family as an intrinsic heterogeneous unit Central to this book is the idea that the family as a social unit around which society is structured still plays a pivotal role in North America States courts and political parties have had to address the major mutations of the family landscape in the last decades The family is instrumental in reorganizing communities in migration contexts and is a key component of political strategies The way family is staged in the press on social media and in TV shows reflects the fast changing patterns and new realities of North American families and offers alternatives to hegemonic representations of

normative families It also ranks high among current literary obsessions since it is the privileged receptacle for contemporary anxieties and operates both as an ideal retreat or an alienating space The proliferation of family narratives in their ever shifting forms reveals that family has boundless potential for fiction and continues to run deep in the North American imaginary This book gathers together approaches that range from field study sociology politics media studies and literature The contributions here show the centrality of the family both as an individual unit and as social political legal and fictional constructs     *Like Our Very Own* Julie Berebitsky,2000 A fascinating chapter in American social and cultural history Like Our Very Own offers compelling evidence of the role that adoption has played in our evolving efforts to define the meaning and nature of both motherhood and family BOOK JACKET     Christianity and Crisis Reinhold Niebuhr,1983 A bi weekly journal of Christian opinion     *Successful American Families* Carle Clark Zimmerman,Lucius Ferdinand Cervantes,1980
