**Terrorism and Islam in Indonesia** Marika Vicziany,David P. Wright-Neville,2005 Since 2003 the subject of Islam and terrorism in Indonesia has become more important as people and governments continue struggling to understand the nature and origins of militancy and how best to respond to it What is really happening in Indonesia Is there a regional axis of evil To what extent is the regional terror group Jema ah Islamiyah parochial and to what extent does it reflect wider regional networks tracing their origins to al Qaeda In particular the history of Islam in Indonesia needs to be understood and its relationship with the world of politics This collection contributes to a better understanding of Indonesia and of Islam and the relationship of both to regional and global stability    *Small Boats, Weak States, Dirty Money* Martin N. Murphy,2009 Many believe that pirates and other water bound terrorists present a significant threat to international maritime security Testing the validity of this claim Martin N Murphy scrutinizes recent incidents of maritime terrorism and locates the commonalities between pirates and maritime terrorists that enable them to commit their extensive crimes Murphy s research opens up surprising sites of contact between pirates and wider criminal networks organizations that pursue their corrupt agendas not only on sea but also on land It is these relationships Murphy argues that bring about the destabilization of states and regions in which piracy occurs Murphy s most significant revelation is the way in which maritime criminality may disguise insurgent and terrorist activity allowing such actors greater freedom to maneuver Although these acts currently rank as a low level threat piracy feeds off of political upheaval Before they can evolve into a truly powerful and dangerous force however maritime terrorists and insurgents will have to overcome significant operational and technical issues They must also capture the attention of an international audience by committing atrocities at sea that are as devastating as those committed on land
