Small Claims Courts A Comparative Study:

Small Claims Courts Christopher J. Whelan, 1990 Whelan traces the development of informal methods of adjudicating small claims and examines the solutions adopted in the U S U K Australia Japan West Germany and others Consumer ADR in Europe Christopher Hodges, Iris Benöhr, Naomi Creutzfeldt, 2012-05-10 This is the first systematic comparative study into how consumer ADR systems usually ombudsmen and mediators work the differing national architectures within which they operate and how they can be improved It describes ADR schemes in Belgium France Germany Lithuania the Netherlands Poland Slovenia Spain Sweden and the United Kingdom as well as emerging pan EU dispute resolution schemes Use of the techniques of mediation conciliation and adjudication are noted It also covers EU measures on consumer ADR and 2011 proposals for legislation on ADR and ODR Data on volumes cost and duration of ADR schemes are compared both between different systems and with courts The authors findings underpin EU and national developments and outline options for future policy Findings and proposals are included for the functions scope performance essential requirements architecture and operation of ADR systems The relationships between ADR courts and regulators are discussed and need for reforms are noted This is a ground breaking work that will have a major impact on European legal systems This title is included in Bloomsbury Professional's International Arbitration online service The Judicial Sector in Latin America and the Caribbean Maria Dakolias, 1996-01-01 Professional analysis of essential elements of judicial reform as provided in any country specific review by the World Bank As political and economic development continue greater attention needs to be given to judicial reform Basic elements of judicial reform include guaranteeing judicial independence through changes in judicial budgeting judicial appointment and disciplinary systems adopting procedural reforms enhancing public access to justice incorporating gender issues in the reform process and redefining expanding legal education and training Handbook of Latin American Studies v 57 **Vulnerable Consumers and the Law** Christine Riefa, Severine Saintier, 2020-10-27 This book charts the difficulties encountered by vulnerable consumers in their access to justice through the contributions of prominent authors academic practitioners and consultants in the field of consumer law and access to justice It demonstrates that despite the development of ADR access to justice is still severely lacking for the vulnerable consumer The book highlights that a broad understanding of access to justice which encompasses good regulation and its public enforcement is an essential ingredient alongside access to the mechanisms of traditional private justice courts and ADR to protect the vulnerable consumer Indeed many of the difficulties are linked to normative obstacles and lack of access to justice is primarily a vulnerability in itself that can exacerbate existing ones In addition because it may contribute to pushing already vulnerable consumers into social exclusion it is not simply about economic justice but also about social justice The book shows that lack of access to justice is not irreversible nor is it necessarily linked to consumer apathy New technologies could provide solutions The book concludes with a plea for developing inclusive justice systems with more emphasis on public

enforcement alongside effective courts systems to offer the vulnerable with adequate means to defend themselves This book will be suitable for both students and practitioners and all those with an interest in the justice system **Staff Studies:**
