Small People:

Ideas Against Ideocracy Mikhail Epstein, 2021-09-09 Winner of the Aldo and Jeanne Scaglione Prize for Studies in Slavic Languages and Literatures awarded by the Modern Languages Association This groundbreaking work by one of the world's foremost theoreticians of culture and scholars of Russian philosophy gives for the first time a systematic examination of the development of Russian philosophy during the late Soviet period Countering the traditional view of an intellectual wilderness under the Soviet regime Mikhail Epstein provides a comprehensive account of Russian thought of the second half of the 20th century that is highly sophisticated without losing clarity It provides new insights into previously mostly ignored areas such as late Soviet Russian nationalism and Eurasianism religious thought cosmism and esoterism and postmodernism and conceptualism Epstein shows how Russian philosophy has long been trapped in an intellectual prison of its own making as it sought to create its own utopia However he demonstrates that it is time to reappraise Russian thought now freed from the bonds of Soviet totalitarianism and ideocracy but nevertheless dangerously engaged into new nationalist aspirations and metaphysical radicalism We are left with not only a new and exciting interpretation of recent Russian intellectual history but also the opportunity to rethink our own philosophical heritage
