postgraduate PGCE School Direct SCITT and also NQTs Mick Dunne is Senior Lecturer in Science Education at Manchester Metropolitan University Alan Peacock is Honorary Research Fellow at the University of Exeter

**Essential Primary Science** Alan Cross,Adrian Bowden,2014-09-16 If you are teaching or learning to teach primary science this is the toolkit to support you Highly respected and widely used Essential Primary Science 2E blends essential subject knowledge with a vast array of teacher activities Updated and revised throughout to reflect the requirements of the new National Curriculum it covers the essential knowledge and understanding that you need plus it offers over 200 great ideas for teaching primary science at KS1 and KS2 so no more late nights thinking up creative new ways to teach key concepts Written in a friendly and supportive style this new edition offers Over 200 original and new activities to complement the new curriculum ready for you to try out in the classroom Tips on how to ensure each lesson includes both practical and investigative elements Suggestions on how to make your lessons engaging memorable and inclusive How to deal with learners common scientific misconceptions in each topic Two new chapters on working scientifically and how to tackle assessment New up to date web links to quality free resources Drawing on their own extensive teaching experience and understanding of the new National Curriculum the authors provide the essential guide to teaching primary science for both trainee teachers and qualified teachers who are not

science specialists *Children in Our Charge* Mary John,1996 This second book in this new series concentrates on the theme of providing for children in child centred ways It includes the philosophical background to thinking about children's rights vis a vis society's responsibilities and examines the effectiveness and dilemmas associated with the concept of the Best Interest of the Child Article three of the Convention of the Right of the Child states that all actions concerning children whether undertaken by public or private social welfare organisations courts of law administrative authorities or legislative bodies must hold the best interests of the child as the primary consideration Rarely however does a child have a say in what those interests are This volume redresses the balance and looks at provision and redistribution of resources as far as possible from the child's perspective It looks at children in very disadvantaged circumstances such as in Romania but also at some of the issues arising from developments in the developed world In addition to established areas this volume looks at two new issues as they concern the rights of the young the possibilities of the information super highway and the rights of children born as a result of reproductive technologies *Curriculum and Teaching* ,2002 *Primary Science* Lynn D. Newton,1992 The book discusses the complex nature of understanding and what it means to teach for understanding The processes and strategies that can support teaching for understanding are then exemplified in the context of different areas of the primary elementary 4-11 years school curriculum **Teaching Science** ,2006 **Primary Science: Teaching Theory and Practice** John Sharp,Graham Peacock,Rob Johnsey,Shirley Simon,Robin Smith,Alan Cross,Diane Harris,2011-06-17 The essential teaching theory and practice text for primary science Covering the key skills of planning monitoring and assessment and class management it relates these specifically to primary science The 5th edition of this popular text includes new features making specific links to Every Child Matters and outlining how ICT can be embedded into the teaching of primary science This text is an indispensable guide for primary trainees on the theory and practice required for effective and creative science teaching Includes features and activities to help the reader make essential links between theory and practice

**Race, Equality and Science Teaching** Steve Thorp,Pratap Deshpande,Christine Edwards,1994 *Southern Africa Journal of Mathematics and Science Education* ,1994 *Primary Science* Mick Dunne,Alan Peacock,2015 Why is science hard to teach What types of scientific investigation can you use in the primary classroom Touching on current curriculum concerns and the wider challenges of developing high quality science education this book is an indispensable overview of important areas of teaching every aspiring primary school teacher needs to understand including the role of science in the curriculum communication and literacy in science teaching science outside the classroom transitional issues and assessment Key features of this second edition include A new chapter on science in the Early Years A new practical chapter on how to work scientifically Master's level critical reading boxes in every chapter linking topics to relevant specialist literature Expanded coverage of creativity and link science to numeracy and computing *Primary Science: Extending Knowledge in Practice* Judith Roden,Hellen Ward,Hugh Ritchie,2007-10-12 Still the biggest concern for many on initial teacher training

courses is the acquisition of subject knowledge and the ability to translate that into effective teaching This book addresses this building on the core subject knowledge covered in the Achieving QTS series and relating it to classroom practice It supports trainees in extending and deepening their knowledge of Science and demonstrating how to apply it to planning and implementing lessons Practical and up to date teaching examples are used to clearly contextualize subject knowledge A clear focus on classroom practice helps trainees to build confidence and develop their own teaching strategies
