Teaching Virtues Building Character Across The Curriculum:

Teaching Virtues Donald Trent Jacobs, Jessica Jacobs-Spencer, 2001-04-04 This book about teaching virtues is based on a fundamental American Indian view that sees the universe as intimate relationships of living things that are vitally affected by attributes called universal virtues These virtues cross all boundaries and cannot be taught in isolation They are woven into all subjects that are worth learning Part 1 provides psychological perspectives that underpin the book's approach Part 2 shows how various pedagogical strategies can turn subject matter into significant relationships Since teaching virtues is ultimately about relationships a natural way to embed awareness of virtues unfolds when there is a consistent commitment to teaching virtues daily Chapters introduce the lesson plan format and the conceptual model explore the meanings of vital terminology and discuss assessment strategies Part 3 realizes the actual interconnections between virtues and content knowledge with chapters that address social studies language arts science physical education mathematics and the arts These chapters show how the process works to truly integrate content and character education Part 4 offers an opportunity for profound reflection on the issues and challenges surrounding effective character education Contains 75 references TD

Teaching Virtues: Building Character Across the Curriculum, paper ed Don Trent Jacobs, *Teaching Character and Virtue in Schools* James Arthur, Kristján Kristjánsson, Tom Harrison, Wouter Sanderse, Daniel Wright, 2016-07-15 *Teaching Character and Virtue in Schools* addresses the contemporary issues of quantification and measurement in educational settings The authors draw on the research of the Jubilee Centre at the University of Birmingham in order to investigate the concern that the conventional wisdom sound judgement and professional discretion of teachers is being diminished and control mistakenly given over to administrators policymakers and inspectors which in turn is negatively effecting pupils character development The book calls for subject competence to be complemented by practical wisdom and good character in teaching staff It posits that the constituent virtues of good character can be learned and taught that education is an intrinsically moral enterprise and that character education should be intentional organised and reflective The book draws on the Jubilee Centre's expertise in support of its claims and successfully integrates the fields of educational studies psychology sociology philosophy and theology in its examination of contemporary educational practices and their wider effect on society as a whole It offers sample lessons as well as a framework for character education in schools The book encourages the view that character education is about helping students grasp what is ethically important and how to act for the right reasons so that they can become more autonomous and reflective individuals within the framework of a democratic society Particularly interested readers will be educational leaders teachers those undertaking research in the field of education as well as policy analysts with a keen interest in developing the character and good sense of learners today

Defending Public Schools: Curriculum continuity and change in the 21st century David Gabbard, E. Wayne Ross, 2004 The volume addresses such issues as the extent to which public schools are succeeding and the degree to which contemporary criticism is or is not

warranted By examining a range of content areas and a variety of philosophical and theoretical concerns this work homes in on the evolution of curricula methods and the forces and ideas that shape the debate Chapters reflect the view that criticism of public schools and teachers is misplaced and misguided Public schools operate under great stress from the pedagogical and political Left and Right This often results in pressures and restrictions imposed through government mandates and corporate sponsorship that obscures the real issues and successes of America s public schools

Citizenship Education in Multicultural Society Daria Hejwosz-Gromkowska, Celina Czech-Włodarczyk, Dobrochna Hildebrandt-Wypych, Inetta Nowosad, 2026-01-19 Analysing the citizenship education approaches of England the Netherlands Canada Ontario and Singapore offers an interesting glimpse into how different societies handle the interplay between cultural diversity national identity and educational strategies This study illuminates the shared challenges and unique responses shaped by each country s historical cultural and political context The study aims to analyse the selected issues concerning the agenda of citizenship education policy and school practices in the selected countries The authors undertake a comprehensive review of the development of multicultural societies and delve into an analysis discussion and reconstruction of the current socio political context of citizenship education in the aforementioned countries

Classical Utopian Theories of Education Robert Thaddeus Fisher, 1963

Knowledge & Power in the Global Economy David Gabbard, 2008 The second edition of *Knowledge and Power in the Global Economy* examines how neoliberal and neoconservative policies are working in tandem to privatize and commercialize public schools It looks at how these policies and the agendas behind them have impacted the internal dynamics of school management teaching and learning as well as how they have transformed the external dynamics of education from a public good or service offered to serve public interests to a private enterprise primarily serving private interests In addition to information critique and analysis multiple perspectives are provided that readers can draw upon to formulate an alternative vision of education as a crucial element of social change along democratic and egalitarian lines The first edition of this volume provided a critical encyclopedic approach to the rhetoric of educational reform as it developed from the 1980s through the 1990s critiquing its vocabulary elaborating the multiplicity of ways that the logic of neoliberalism and the emerging patterns of high stakes testing and accountability were impacting the curriculum and introducing ideas associated with alternative and liberatory educational projects Since its publication in 2000 policy developments such as the No Child Left Behind Act of 2001 in the U S and others in the U K and other parts of the world have nationalized and intensified these patterns deepening the logic and extent of neoliberalism s hold over educational reforms At the same time it is impossible to understand the current crises in education solely in terms of neoliberalism the impact of neoconservatism must also be considered Hence this second edition has a new subtitle *The Effects of School Reform in a Neoliberal Neoconservative Age* This edition is structured around five themes Political and Social Foundations Anti Educational Foundations The Set Up Anti Educational Foundations The Trap Classroom Consequence Democracy s Path This volume will
