Decrypting Power Ricardo Sanín-Restrepo, 2020-05-19 Decrypting Power aims to reach a unifying concept that allows the connection of the fundamental theses stemming from critical legal studies Subaltern studies decolonization law and society global political economy critical geopolitics and theories of de coloniality This volume proposes that this concept is the encryption of power a category of analysis that reveals the weakness of political liberalism when it takes the place of the

legitimate fundamant of democracy as well as its consummate capacity to conceal new mechanisms of global power The theory of encryption of power understands that there is only a world where difference exists as the fundamental and sole order but also that such a possibility is heavily obstructed by the concentration of power in forms of oppression The world hangs on the thread of this entangled reality made up of difference and its denial of democracy and its simulations of truth and its codifications The decryption of power is then above all a theory of justice essential to radical democracy which comes fully equipped to prevail over the conditions that deny the possibility of an egalitarian world Works William

Winslade,Judith Wilson Ross,1986 Describes the legal ethical financial medical and emotional aspects of decisions involving the critically ill and discusses living wills kidney dialysis handicapped newborns organ transplants and genetic screening **The Potlatch Papers** Christopher Bracken,1997-12-08

Variously described as an exchange of gifts a destruction of property a system of banking and a struggle for prestige the potlatch is considered one of the founding concepts of anthropology However the author here dismisses such a theory arguing the concept was invented by 19th century Canadian law for the purpose of control 9 halftones *A Decembered Grief* Harold Ivan Smith,1999 Suffering the loss of a loved one at any time of the year is difficult Yet during the holidays or special occasions those grieving experience a more intense sense of loss With keen perception *A Decembered Grief* provides illustrations and insights for those facing grief impacted holidays and emphasizes God s ability to transform the season into a time of grace and healing

Indiscretion Thomas A. Carlson,1999-02-02 How can one think and name an inconceivable and ineffable God Christian mystics have approached the problem by speaking of God using negative language devices such as grammatical negation and the rhetoric of darkness or unknowing and their efforts have fascinated contemporary scholars In this strikingly original work Thomas A Carlson reinterprets premodern approaches to God s ineffability and postmodern approaches to the mystery of the human subject in light of one another The recent interest in mystical theological traditions Carlson argues is best understood in relation to contemporary philosophy s emphasis on the idea of human finitude and mortality Combining both historical research in theology from Pseudo Dionysius to Aquinas to Eckhart and contemporary philosophical analysis from Hegel and Nietzsche to Heidegger Derrida and Marion *Indiscretion* will interest philosophers theologians and other scholars concerned with the possibilities and limits of language surrounding both God and human subjectivity

Cross Purposes Anthony Bartlett,2018-09-20 This seminal study of the Christian theory of the atonement examines the story of Christian violence In *Cross Purposes* Anthony Bartlett claims that the key Western doctrines of atonement have been dominated by a logic of violence and sacrifice as a means of salvation Subsequently the graphic suffering of the crucified in images and narrative has served to unleash a prolonged sacrificial crisis in which there is always a potential need to displace blame These doctrines of atonement have sanctioned wide spread violence in the name of Christ throughout history But Bartlett argues that a minority tradition also exists He contends that the tradition of the compassion

of Christ provides the possible way out of Christian violence Bartlett's study gives this tradition a dynamic new reading showing how it undoes both divine and human violence and offers a powerfully transformative version of atonement for the contemporary world Cross Purposes provides a rich historical and theological overview of the evolution of various atonement theories using literature art and philosophy to provide a creative and provocative reading of Christian atonement Anthony Bartlett is engaged in post doctoral research and is an instructor in Religion at Syracuse University For Seminarians clergy graduate students professors Laura Ruthven's widowhood, by C.J.
