*Dilemma between Art and Problem-Solving* Philipp Zitzlsperger,2025-12-15 The design dilemma is based on the historic separation of design and art since the late Middle Ages It describes the transformation of design from an art discipline to a problem solving discipline On the one hand this great divergence is accompanied by myths that construct opposites of free art and unfree design of aura and loss of aura or of distance and touch On the other hand the avant gardes have often invoked the unity of art and design which museums or marketing also take up again today In order to better understand design's wandering between art and non art its 600 year history of ideas is now traced for the first time in the fields of art and industrial history as well as the philosophy of pragmatism since about 1900 Special attention is paid to the original ideas and their overformation by technicism capitalism functionalism or Darwinism They create the design dilemma that shapes the attitude of its actors    The art of solving problems in higher arithmetic.
