**The Connector Manager** Jaime Roca, Sari Wilde, 2019-09-19 The best managers work smarter not harder After conducting a unique global study of over 9 000 people analysts at the world leading sales research firm Gartner identified four distinct types of manager Incredibly they found one type consistently performs far better than the rest and it wasn't the one they were expecting Connector Managers understand that it's not enough for managers to just encourage and teach employees themselves and that providing constant coaching to employees can actually be detrimental to their independent development Instead by connecting employees to others in the team or organisation Connector Managers can help their employees develop a range of skills beyond their own areas of expertise Although the four types of managers are more or less evenly distributed employees with Connector Managers perform significantly better than others Employees with Always on Managers who provide constant feedback and coaching perform significantly worse Drawing on their ground breaking data driven research as well as in depth case studies and extensive interviews with thousands of managers you'll discover what behaviours define Connector Managers and how you can use them yourself to build brilliant powerhouse teams
