Washington Post Book World Ingenious Women Deborah Jaffé,2003 This delightfully illustrated book examines inventions and discoveries made by women beginning with the first patent application made in 1637 and ending with the outbreak of war in 1914 Lively accounts of the stories of the inventions are placed into the context in which their discoveries were made and the struggle they had to acquire patents and put their inventions into production In covering this previously obscure part of women s lives the practical way in which women have made an enormous contribution to social change and scientific advance is revealed **In a Japanese garden ; The household shrine ; Of women's hair ; From the diary of an**

Lafcadio Hearn, 1894 As an interpreter of Japan to the West Lafcadio Hearn was without parallel in his time His numerous books about that country were read with a fascination that was a tribute to his keen powers of observation and the vividness of his descriptions Today even though Japan has changed greatly from what it was when he wrote about it his writing is still valid for it captures the essence of the country an essence that has actually changed a good deal less than outward appearances might suggest In a word the Japanese character and the Japanese tradition are still fundamentally the same as Hearn described *Outing* ,1890 *Outing and the Wheelman* ,1890
