Technology And Mans Future:

Theology and Technology, Volume 1 Carl Mitcham, Jim Grote, Levi Checketts, 2022-07-21 Originally published nearly forty years ago as a spiritual successor to Carl Mitcham and Robert Mackey's *Philosophy and Technology* the essays collected in the two volumes of *Theology and Technology* span an array of theological attitudes and perspectives providing sufficient material for careful reflection and engagement The first volume offers five general attitudes toward technology based off of H Richard Niebuhr's five ideal types in *Christ and Culture* The second volume includes biblical historical and modern theological engagements with the place of technology in the Christian life This ecumenical collection ranges from authors who enthusiastically support technological development to those cynical of technique and engages the Christian tradition from the church fathers to recent theologians like Bernard Lonergan and Jacques Ellul Taken together these essays some reproductions of earlier work and others original for this project provide any student of theology a fitting entrance into considering the place of technology in the realm of the sacred

Technology Vs. Humanity Gerd Leonhard, 2016-09-06 Futurist Gerd Leonhard breaks new ground again by bringing together mankind's urge to upgrade and automate everything down to human biology itself with our timeless quest for freedom and happiness Before it's too late we must stop and ask the big questions How do we embrace technology without becoming it When it happens gradually then suddenly the machine era will create the greatest watershed in human life on Earth Technology vs Humanity is one of the last moral maps we'll get as humanity enters the Jurassic Park of Big Tech Artificial intelligence Cognitive computing The Singularity Digital obesity Printed food The Internet of Things The death of privacy The end of work as we know it and radical longevity The imminent clash between technology and humanity is already rushing towards us What moral values are you prepared to stand up for before being human alters its meaning forever Gerd Leonhard is a new kind of futurist schooled in the humanities as much as in technology In his most provocative book to date he explores the

exponential changes swamping our societies providing rich insights and deep wisdom for business leaders professionals and anyone with decisions to make in this new era If you take being human for granted press Reset now with this passionately argued call to create a genuinely braver new world Dismantling the Big Bang Dr. John Hartnett,Alexander Williams,2005-07-01 Why did Ptolemy s theory cause problems for the church What is the big secret concerning the Age of the earth Why do many scientists reject the use of design in explaining origins The seemingly absurd idea that all matter energy space and time once exploded from a point of extreme density has captured the imagination of scientists and laypersons for decades The big bang has provided a central teaching for the eons of time of cosmic evolution undermining the history and cosmology of the Bible It is a theory that fails even violating the very physical laws on which it is purportedly based In this easy to read format authors Alex Williams and John Hartnett explode this naturalistic explanation for the universe and show that the biblical model provides a far better explanation of our origins This fully indexed illustrated analysis of the big bang theory is an invaluable help in understanding and countering a world view that is as chaotic and destructive as its name implies **Man-made Futures** Nigel Cross,David Elliott,Robin Roy,1974 **The Study of the Future** ,1977 Technology and Man's Future Albert H.
