## Telephone Poles Other Poems:

**Telephone Poles and Other Poems** John Updike, 2012-04-25 This second collection of John Updike's poetry is equally divided between poems that in their verbal jugglery and humorous bias seem to qualify as light and poems that one way or other cross the problematic border into the general realm of poetry. The distinction cannot be clear cut. The poet is consistently concerned with Man's cosmic embarrassment and the same vision illuminates the creatures of *The High Hearts and Seagulls*. Science and religion so frequently and variously invoked frame a single paradox the paradox of the mundane and each poem whether inspired by an antic headline or a suburban landscape rejoices in the elusive surface of created things. When *The Carpentered Hen* John Updike's first collection of verse was published Phyllis McGinley wrote I have been happily reading Mr Updike in *The New Yorker* for some time and am happy now to own him collected. When he first appeared in that magazine I was so elated to see a new name in light verse that I felt like crying with the Ancient Mariner. A Sail A Sail His is what poetry of this sort exactly out to be playful but elegant sharp eyed witty. In the *Saturday Review* David McCord wrote Furthermore he is a graceful border crosser light verse to poem as Auden has been as Betjeman and McGinley

frequently are     **Selected Poems of John Updike** John Updike, 2015-10-13 The best from Updike's lifework in poetry 129 witty and intimate poems that when read together take on the quality of an autobiography in verse. By a master of American letters and the author of the acclaimed *Rabbit* series Updike's gift for close observation in these poems as elsewhere is near to supernatural. The *New York Times* Five decades of witty intimate and moving poems written between 1953 and 2008 with the cumulative force of an unfolding verse diary. Though John Updike is widely known as one of America's greatest writers of prose both his first book and his last were poetry collections and in the fifty years between he published six other volumes of verse. Now six years after his death Christopher Carduff has selected the best from Updike's lifework in poetry 129 witty and intimate poems that when read together in the order of their composition take on the quality of an unfolding verse diary. Among these poems are precocious undergraduate efforts including the previously unpublished *Coming into New York* frequently anthologized midcareer classics *Seagulls* *Seven Stanzas at Easter* *Dog's Death* and dozens of later works in a form that Updike made his own the blank verse sonnet. The poems range from metaphysical epigrams and devotional poems to lyrical odes to rot growth and healing from meditations on Roman portrait busts and the fleshy canvases of Lucian Freud to observations on sash cords postage stamps and hand tools from several brief episodes in family history to a pair of long autobiographical poems the antic and eclectic *Midpoint* written at age thirty five and the elegiac masterpiece *Endpoint* completed just before his death at seventy six. The variety of the work is astonishing the craftsmanship always of the highest caliber. Art science popular culture foreign travel erotic love the beauty of the man made and the God given worlds these recurring topics provided Updike ever surprising occasions for wonder and matchless verbal invention. His *Selected Poems* is as Brad Leithauser writes in his introduction a celebration of American life in the second half of the twentieth century. No
