

A background image showing three scientists in a laboratory setting. A man on the left, a woman in the center, and a man on the right are all looking down at a piece of equipment on a table. The woman is wearing a white lab coat and a lanyard. The man on the right is wearing glasses and a blue shirt. The man on the left is pointing at the equipment. The equipment appears to be a small, clear, rectangular device with some internal components visible. A desk lamp is visible in the upper left corner, casting light on the scene. The overall tone is professional and focused on scientific research.

Jacques Ellul

Technological Society:

The Technological Society Jacques Ellul, 2021-07-27 As insightful and wise today as it was when originally published in 1954 Jacques Ellul's *The Technological Society* has become a classic in its field laying the groundwork for all other studies of technology and society that have followed Ellul offers a penetrating analysis of our technological civilization showing how technology which began innocuously enough as a servant of humankind threatens to overthrow humanity itself in its ongoing creation of an environment that meets its own ends No conversation about the dangers of technology and its unavoidable effects on society can begin without a careful reading of this book A magnificent book He goes through one human activity after another and shows how it has been technicized rendered efficient and diminished in the process Harper's One of the most important books of the second half of the twentieth century In it Jacques Ellul convincingly demonstrates that technology which we continue to conceptualize as the servant of man will overthrow everything that prevents the internal logic of its development including humanity itself unless we take necessary steps to move human society out of the environment that technique is creating to meet its own needs *The Nation* A description of the way in which technology has become completely autonomous and is in the process of taking over the traditional values of every society without exception subverting and suppressing these values to produce at last a monolithic world culture in which all non technological difference and variety are mere appearance Los Angeles Free Press [The Technological System](#) Jacques Ellul, 2018-06-11

Some 20 years after writing *The Technological Society* Jacques Ellul realized how the totalistic dimensions of our modern technological milieu required an additional treatment of the topic Writing amidst the rise of books in the 1970s on pollution over population and environmental degradation Ellul found it necessary once again to write about the global presence of technology and its far reaching effects *The Technological System* represents a new stage in Ellul's research Previously he studied technological society as such in this book he approaches the topic from a systems perspective wherein he identifies the characteristics of technological phenomena and technological progress in light of system theory This leads to an entirely new approach to what constitutes the most important event of our society which has decisive bearing on the future of our world Ellul's analysis touches on all aspects of modern life not just those of a scientific or technological order In the end readers are compelled to formulate their own opinions and make their own decisions regarding the way a technique based value system affects every level of human life **Jacques Ellul and the Technological Society in the 21st Century**

, 2013 **Questioning Technology with Jacques Ellul** David W. Gill, Lisa Richmond, 2025-10-07 Twenty first century technology is an ever expanding powerful force in virtually every aspect of human life and every corner of the globe So much of modern technology has resulted in positive improvements in communication work health and other domains Technology's promises and possibilities for the future are often glowing But it is one thing for technology to function as a tool serving human purpose and flourishing and quite another for it to be granted the position of unquestioned master All technologies

deserve to be questioned What are their costs trade offs and potential or real negative impact And how do we create limits and controls for technological invasion when these would be wise and necessary Questioning Technology with Jacques Ellul addresses these questions in both the big picture and in their relevance to specific arenas such as art politics work and religion with voices from not just the academy but also the workplace and society *Researching Digital Society* Harry Dyer,2025-11-05 Interested in digital technology and its impact on our everyday lives This multidisciplinary book introduces you to the theories concepts and methods you need to research our digital society Drawing on diverse case studies and examples it gives you everything you need to understand and choose from a range of research designs and to utilise and critique digital data from a variety of sources Learn more about How technology shapes our society and how online and offline spaces impact each other Key methodologies and theories used to understand digital societies Approaches for studying different voices and communities in online spaces including digital inequalities The perfect companion for students and researchers across the social sciences this book is a fresh practical introduction to research in the digital age What's Wrong with Our Technological Society--and how to Fix it Simon Ramo,1983 **Proceedings of the Engineers' Club of Philadelphia** Engineers Club of Philadelphia,1883 **The Technological Society.
