tumultuous events of the German Revolution A vital historical document this work provides crucial insights into the political and social upheavals that swept through Germany during this pivotal year Marx applies his developing theories of class struggle and historical materialism to explain the complex interplay of forces at work examining the roles of different social classes and political factions in shaping the course of the revolution This volume explores the initial revolutionary fervor and subsequent reactionary backlash charting the rise and fall of various movements and leaders As a firsthand account informed by Marxist theory Revolution and Counter Revolution remains essential reading for anyone interested in German history Marxist thought and the dynamics of social movements and revolutions A key text for understanding 19th century political history This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant     *Revolution and Counter Revolution in Germany* Friedrich Engels,2015-03-26

THE first act of the revolutionary drama on the continent of Europe has closed The powers that were before the hurricane of 1848 are again the powers that be and the more or less popular rulers of a day provisional governors triumvirs dictators with their tail of representatives civil commissioners military commissioners prefects judges generals officers and soldiers are thrown upon foreign shores and transported beyond the seas to England or America there to form new governments in *partibus infidelium* European committees central committees national committees and to announce their advent with proclamations quite as solemn as those of any less imaginary potentates A more signal defeat than that undergone by the continental revolutionary party or rather parties upon all points of the line of battle cannot be imagined But what of that Has not the struggle of the British middle classes for their social and political supremacy embraced forty eight that of the French middle classes forty years of unexampled struggles And was their triumph ever nearer than at the very moment when restored monarchy thought itself more firmly settled than ever The times of that superstition which attributed revolutions to the ill will of a few agitators have long passed away Everyone knows nowadays that wherever there is a revolutionary convulsion there must be some social want in the background which is prevented by outworn institutions from satisfying itself The want may not yet be felt as strongly as generally as might ensure immediate success but every attempt at forcible repression will only bring it forth stronger and stronger until it bursts its fetters If then we have been beaten we have nothing else to do but to begin again from the beginning     *Revolution and Counter-Revolution* Friedrich Engels,Karl Marx,Eleanor Marx Aveling,2018-06-18     *Germany: From Revolution to Counter-Revolution* Rob Sewell,2018-07-19
