Tabletop Fountains:

Tabletop Fountains Dawn Cusick, 1999 For many people the soothing sound of water trickling through a fountain has the same effect as taking a deep breath it's instantly calming and relaxing. Now thanks to this first of its kind book you can bring the rhythmic music of flowing water into your home with decorative tabletop fountains that you create yourself. The techniques are simple and the materials inexpensive. You begin with an attractive bowl or basin to which you add a submersible pump along with plastic tubing to direct the water flow. Then comes the fun part finding a way to disguise these elements. Marbles, stones and rocks work well. In minutes your fountain will be up and running. More elaborate fountains with layers of cascading water are also easy to build; they just take a little more time.
